

CAROL TANJUTCO, J.D. CPA

Life is a chiaroscuro of light and shadow. Without dark shades, we can't appreciate the light. Without challenges, there is no meaningful triumph or joy. It is in weakness that we find strength, the strength to be anyone our hearts desire to be.

What's real or surreal exists only in the Fourth Dimension of my mind. I traveled through time and space, to places unknown and revisited my distant past, the ugly demons that once reared in my canvas now overcome by the bountiful nature that I found where I sojourn, painting joyfully in the vast landscape of my dreams, my esoterical reality. —
