

JOB TITLE:	Multi-Skilled Engineer
COMPANY:	GSP Digital Solutions Ltd
TYPE:	Full-Time

About Us

At GSP Digital Solutions we're all about innovation and creativity. As a vibrant, young company, we believe that work should be fun, collaborative, and inspiring. Our team is passionate, dynamic, and committed to pushing boundaries. Join us and be a part of an environment where your ideas and skills will thrive!

Job Description

We are seeking a talented and versatile Multi-Skilled Engineer to join our energetic team. In this role, you'll tackle a variety of projects that span different engineering disciplines, ensuring that our operations run smoothly and efficiently.

Key Duties and Responsibilities

- To provide technical support to all areas on a daily basis across multiple electrical and data cabling disciplines.
- Installation of contract work across multiple electrical and data cabling disciplines.
- Implement minor or small electrical installation works without supervision.
- Ensure all tasks are risk assessed through site specific or dynamic assessments.
- Faults diagnostics
- Sourcing parts and materials from suppliers.
- Identify extra work requirements and provide details of required material and labour estimate to enable client quotes to be issued

- Support the procurement, installation, commissioning, and maintenance of key automated manufacturing & site plant equipment including process modifications and expansion.
- A willingness and drive to actively endorse and promote excellent standards of work and health and safety compliance
- Diagnose and resolve technical issues, implementing effective solutions to minimise downtime.
- Maintain accurate records of maintenance activities, repairs, and project progress

If you're a problem-solver who enjoys a fast-paced, collaborative environment, we want to hear from you!

Qualifications

- **Education:** Qualifications in Engineering (Electrical, or related field) or equivalent experience.
- **Experience:** 3+ years in a multi-skilled engineering role, with a strong background in electrical systems.
- **Skills:** Proficient in troubleshooting, diagnostic techniques, and maintenance practices across various disciplines.
- **Personality:** A positive attitude, strong communication skills, and a team-oriented mindset.

Why Join Us?

- **Vibrant Culture:** Be part of a fun, young, and dynamic team that values creativity and collaboration.
- **Growth Opportunities:** We prioritise professional development and provide opportunities for advancement.
- **Work-Life Balance:** Enjoy flexible working hours and a supportive environment that respects your time.

If you're ready to take on a challenging and rewarding role in a company that values innovation and teamwork, apply today! Send your CV and a cover letter to siobhan@gspolutions.co.uk with the subject line "Multi-Skilled Engineer Application."
