

UTENSIL RAMP®

Specification Sheet

Manufacturer: Food Safety Innovation, LLC

Dimensions: 9.5" L x 5.0" W x 2.15" H

Material: 300 series stainless steel

Installation: Fits inside 1/3 size hotel pan

Warewashing: Mechanical dishwasher safe

UTENSIL RAMP® keeps utensil handles elevated between uses, preventing contamination of the handle, disposable gloves or bare hands. UTENSIL RAMP® can be used in a refrigerated 1/3 size hotel pan or inverted on a prep table.

***Simplifies Operations**

Utensils stay out of refrigerated foods and off unsanitary surfaces.

UTENSIL RAMP® stored utensils - not disposable gloves - are the ideal way to handle raw proteins.

UTENSIL RAMP® helps preserve disposable gloves for RTE foods.

***Reduces Costs and Saves Time**

Fewer disposable glove changes = Fewer required hand washes.

Reduced glove use = Reduced costs = Reduced waste.

Helps conserve resources: soap, disposable paper towels, water.

***Advances Food Safety Culture**

Helps food handlers avoid cross contamination between orders.

Combats BOH "handwashing fatigue."

Fewer glove changes = Improves ticket times.

Safer food handling = Improved compliance.
