We'll still follow the full ceremony structure, and I'll support your friend throughout the process of writing your ceremony, so no-one needs to stress. I'll just be there to step in at the right time to validate your marriage legally, be around for the whole ceremony to help wrangle your guests, and make sure things run smoothly.

- An obligation-free Zoom chat to make sure we vibe
- A Ceremony Planning meeting with me, you, and your friend to sign the Notice of Intended Marriage, discuss ceremony structure and to help us create the day of your dreams

Ceremony Overview

This overview provides an outline of a typical ceremony. We will use it to plan and organise the elements in your marriage ceremony, and ultimately bring your vision to life! Everything (except the Legal Vows and

Housekeeping	Are there any notices that I should give your guests before the official ceremony begins? This may include information on the reception, what will happen straight after the ceremony, any photo or phone requests (I can tell Gran to put that iPad away), and any other little bits of information that the guests will need to know before things get underway.
The Entrance	The part where one, or both, parties enter the ceremony space and proceed down the aisle. This is usually done to a song of your choice. Got any unique entrance plans? Let me know and we'll make it happen!
The Introduction	I will welcome your guests to your wedding ceremony and identify myself as the authorised celebrant. You may like to include an Acknowledgement of Country in this section, give a shout out to your wedding party, or thank your special people. I can do this all on your behalf. I will also write up a personalised section talking about why you're standing in front of one another and how you got there, that is, your Great Love Story!
Poem/Reading	Are there any poems or readings you'd like to include? This could be the opportune moment to involve someone special in your ceremony who isn't already part of the wedding party.
The Asking	This is where you get to say "I Do!" The wording here is completely designed by us and follows a question-and-answer format. Think "do you take this person through sickness and health, thick and thin, now and forever, even when they forget to do the dishes" etc.
The Personal Vows	Words from the heart. Do you remember the first time you ever laid eyes on your partner? How did it make you feel? What special memories do you hold close, from that very first date right up until this moment? What do you foresee in your future? Proclaim your love and shout it from the rooftops! I'll guide you in writing the vows (and give you my handy Vow Cheat Sheet too).
The Legal Vows and Exchanging of Rings	The nitty-gritty of becoming partners for life. There are specific words from the <i>Marriage Act</i> that you must say to one another at this point. Don't worry, I'll be whispering the words in your ear to ensure we're abiding by the law. This is also the perfect time to slip a ring on your partner's finger.
The Signing of the Marriage Certificates	A brief pause from taking centre stage to sign the marriage certificates. There's three of them! One is sent to Births, Deaths and Marriages, one is kept by me, and the third is presented to you.
The First Kiss	It's time to seal the deal with your first kiss as a married couple!
The Exit	How would you like your ceremony to end? Will you walk back down the aisle and meet your guests somewhere to receive their love and hugs, or would you like to remain at the altar and have the guests come to you? Or do you want to head straight off to your photos and leave the hugs til the reception? Maybe you want to get the guests involved, turn up the music, and start the after party straight away!

signing of the marriage certificates) is optional, so you can add or remove any elements of your choosing.

Some food for thought...your wedding day is all about you. It's a reflection of you as individuals who have chosen to be partners for life. Every aspect and element of your wedding, from the flowers to the champagne flutes, should reflect you and what you want. With this in mind, are there any parts above that you aren't vibing? Any extras you'd like to add in? Perhaps you have family tradition or cultural ritual, or maybe you want everyone to have a toast during the ceremony? If so, let me know!
