

August 3, 1991

Mountain Air Nursery & Floral, Inc.:

This letter is written to applaud the benefits of VITA PLANTA for the soil in my yard. It is just amazing to see the water penetrate the dirt around plants whereas before water would just stand.

We moved to the White Mountains in February of 1991 and have been trying to cope with the hard soil we found in our vegetable and floral gardens here.

We had tried gypsum and other products, but it wasn't until the clerk at Mountain Air told me about VITA PLANTA that I have had the measure of success in growing plants that I now have.

I am recommending VITA PLANTA to all my friends, and they, too, have experienced the same success that I have. Thanks for your wonderful product!

Sincerely,

*Margaret Kontos*
