SUBJECT: PLANT and VEGETABLE "HEALTH FOOD"

I really thought that in my senior years and considerable experience "Green Thumbing" over the years, that there was nothing more anyone could show me about health food or fertilizer for home grown or commercial plants and vegetables, brother, was I ever wrong....I ran out of plant food recently and borrowed a product called "Vita Planta," manufactured by Vita Flora of Lakeside, Az to restore some strength and beauty to my flower and vegetable plants I had planted earlier. The result was totally amazing and bordered on the incredible. The plants I was about to tear up and throw out were strong, healthy and beautiful the following day, less than 16 hours after the application of "Vita Flora."

I whole heartedly recommend the use of this plant and vegetable "Health Food" and would not hesitate for a moment to suggest to " anyone" that it is the finest fertilizer health food, plant and vegetable product on the market today.

Thank you Vita Flora.

I remain,
