

9-1-92

Vita Flora, Inc.
P.O. Box 1690
LAKESIDE, AZ.

Dear MR. ~~Roth~~,

Thank you for sharing your Vita Planta and Vita Flora with me.

I dusted AATREX 90 (weed killer) on the drive-way of my home in Show Low, AZ. on June 1, 1992. This is approximately 20' from any vegetation.

Aug. 1, 1992, my neighbor informed me that it appeared the lilac bushes and poplar tree (10') were dying. The leaves were curling, brown and falling off. I used miracle gro for 2 weeks, but the damage continued to spread.

Aug. 14, 1992, I took a cutting of the damage to Mountain Air Nursery. ~~Roth~~ gave me a bottle of Vita Planta and instructions on nursing the damaged tree & bushes back to life. I took pictures, not really believing it would do any good.

Aug. 26, 1992, I noticed new growth appearing on the bushes and tree. I took pictures and rushed back to share with ~~Roth~~ - THANK YOU - indeed the product gives results!

Aug. 26, 1992, I had a rash on my foot. ~~Roth~~ suggested I try ~~miracle gro~~. In two days the rash disappeared.

I shared this information with friends in Tucson and am now traveling back in attempt to get refills of both products.

Thank you again, ~~Roth~~ for introducing my friends and me to two wonderful products. My plants, trees and me, will be grateful to endorse your products.

Sincerely,
Betty Johnson
Show Low and
Tucson, AZ.
