To whom it may concern:

We have used Bill Ruths' Vita Agri plus since mid summer of this past year. We have seen changes in our ability to strengthen the grass in many weak areas of the course. Our rate of application for both greens, tees, and fairways is 1 quart per acre. In conjunction with the application we have reduced the amount of fertility used in the past to half of what we have applied in the past.

We are pleased with the results and will continue to use the product.
