P.O. Box 1690  
Lakeside, Arizona 85929

Dear Bill,

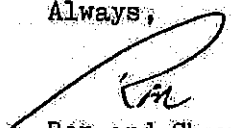

I am writing this letter to say a big thank you for your anti-bacterial sample. You gave me a sample to try on mosquito bites, and I found it quite effective, both in relieving the itch and reducing the swelling. You had indicated in our conversation that it also could be used on cuts, etc., which brings about the real purpose of this letter.

My father-in-law, Jerry Silva, is an amputee and a diabetic. Since having his leg amputated almost three years ago he has had a scar which has never completely healed, caused in part by his diabetes and the wearing of his prosthesis. I encouraged my wife Chari to have her Dad try the anti-bacterial on his sore to see if it would help. The doctor had recommended neo-sporin be used to help the healing process, but with less than satisfactory results. Jerry fell on a trip to California, seriously aggravating and re-opening the scar tissue. After several weeks of using neo-sporin and not wearing his prosthesis, Chari took my sample bottle of your anti-bacterial to her dad to try. Jerry started applying it three times daily about one month ago, and both Chari and Jerry say the scar looks the best it has in the three years since the surgery. They started noticing the results after the first three days, and it continues to improve and heal while once again wearing his prosthesis. The scar is 99% closed and much tougher than in the past. Jerry brags to me about your anti-bacterial and how well he feels his healing has progressed in the last month.

We wish to extend to you our heartfelt thanks for your anti-bacterial sample and the results we have seen. It's been wonderful seeing Jerry back on his leg and not confined to his wheel chair. Any one of the three of us would be willing to answer any questions you may have. We wish you well with your future successes, and hope that others may someday have the same great results we have had.

Thanks again Bill!

Always,

Ron and Chari Brooks
