Subject: Vita Christmas Tree & Wreath preservative

This year at the same place where we bought our Christmas Tree, we also bought an 8 oz bottle of Vita Christmas Tree & Wreath preservative. It was absolutely the most amazing product we have ever used. We have NEVER had a Christmas tree stay so utterly fresh before. It was up for over three weeks; and when we took it down, we were still adding water on a daily basis to the tree stand.

Here's the problem. Each year, we buy a 9 1/2 foot tree. Do you have any idea how quickly we used the 8 oz bottle we bought? Over Christmas, we ultimately used three ounce bottles and part of the fourth! Is it possible to buy your incredible product in a larger quantity? If so, where can I find it? I live in the Greater Seattle area.

Thank you in advance for your help.
