

It's Perfectly Normal

by Robie H. Harris & Michael Emberley

Located in the Children's Section (6-11) of the Hays Library (& eBook)

Page 6 - For lots of kids, sexual desire can happen when one has happy, nervous, or exciting feelings about another person — feelings that you may even feel inside your body.

Page 8 - One kind of sexual intercourse happens when a person with a female body and a person with a male body are so close to each other that the penis goes inside the vagina, and the vagina stretches in a way that fits around the penis. This kind of touching can make the whole body feel good — feel sexy.

Page 9 - Another kind of sexual intercourse happens when the sexual parts of two people who have female bodies touch or when the sexual parts of two people who have male bodies touch. This kind of touching can make the whole body feel good — feel sexy.

WHAT IS SEX? 

Page 10 - Sexual intercourse —“having sex”— can involve the penis and the vagina, or the mouth and the genitals, or the penis and the anus.

Page 12 - The ancient Greeks thought that love between two men was the highest form of love. In the ancient Greek city-state of Sparta, in about 1000 BCE, it was hoped that if male warriors were in the same army regiment as their lovers, they would fight harder in order to impress each other.

Page 13 - Sometimes as kids are growing up, they become curious about other kids who are the same gender as they are or who are a different gender. They may even look at and even touch each other's bodies. This is a normal kind of exploring...

Page 25 - When the penis is touched and rubbed, the penis and the whole body can feel good both outside and inside — kind of tingly, kind of warm and nice. It feels sexy.

Page 41 - Erections usually happen before and during sexual intercourse. An erection makes it possible for the penis to enter the vagina.

Page 42 - Ejaculation usually occurs during sexual intercourse. It can also occur during other kinds of sexual touching...

Page 49 - Many kids worry about their friendships during puberty—probably because puberty is a time when some kids start to have loving relationships with other kids.

Page 50 - Having a loving relationship and having a partner are other things kids are teased about during puberty.

Page 51 - When people masturbate, they usually rub their sex organs with their hands or with something soft, like a pillow. Girls often rub their clitoris; boys often rub their penis. Both the clitoris and the penis are sensitive to touch.

Page 52 - People of all ages masturbate — babies, kids, teenagers, grown-ups, and the elderly.

Page 59 - Sexual intercourse, or as it is often called, “making love,” is a kind of sharing between two people...

Page 60 - When a person with a female body and a person with a male body are having vaginal intercourse, the erect penis goes into and inside the vagina, which stretches in a way that fits around the penis. The wetness from the vagina makes it easier for the penis to go into the vagina.

Vaginal intercourse is also called vaginal sex. As the two people move back and forth in rhythm, the movement of the penis inside the vagina soon feels very good.

Page 61 - When these feelings come to a climax, semen is ejaculated from the penis and spurts into the vagina...

Page 62 - When an erect penis goes inside the anus, this is called anal sex or anal intercourse.

Page 75 - Whether or not to have sexual intercourse is a decision each person has a right to make.

Page 80 - Some brands of the morning after pill can be purchased by anyone of any age or gender...

Page 89 - You may even find yourself on a site that has photos or videos of naked bodies or sexual acts that are created to make a person feel sexually excited. These kinds of photos or videos are called pornography. Many people use the word porn as a short way of saying pornography. Some kids do not want to see these kinds of images at all. Other kids are curious about them and may find them exciting. Even so, people think that kids should stay away from porn.
