Bnai Zion Medical Center

Northern Israel's Leading Hospital

ABOUT US

The Bnai Zion Medical Center was founded in 1922 as the first Jewish hospital in Haifa. As we approach our Centennial Celebration we are one of Israel's leading hospitals. Throughout the years we have provided dedicated medical care, education, research and human health services to the diverse and growing population of Northern Israel.

Our dedicated staff of Jews, Muslims, Christians and Druze proudly reflects the varied population we serve.

Our commitment to excellence has placed us as a top ranked hospital in and out of Israel. Our affiliation with the Technion's faculty of medicine has made us a key contributor to vital medical and technical research.

OUR VISION

- A Medical Center that stands at the forefront of technology.
- A hospital that takes an active role in the local community of Haifa and works in close collaboration with the Israeli health system.
- A Hospital that constitutes as the first choice for the patients and staff.*

*according to a recent patient satisfaction survey conducted by the Israel's Ministry of Health.

OUR VALUES

- Professionalism & Excellent
- Initiative & innovative
- Transparency & Respectability
- Partnership & Respectability
- Partnership & Cooperation
- Family

NUMBERS

Land Area

20 Dunam (4.9 Acres)

Building Area

500,000 sqm.

Avg. Visitors

135,000 per year

Hospital Beds

450

Employees

2,000

Surgeries

10,000 per year

New Born Deliveries

3,500+ per year

E.R. Visits

55,000+ per year

WHAT SETS US APART

- We are the first hospital in the world to integrate Emotional Intelligence throughout our entire healthcare system. We recognized the critical importance of this tool and have integrated into all of our medical departments.
- A leading Laparoscopic Surgical center.
- The second in the world to provide Integrative Medicine as part of the conventional medical treatments in all medical departments.

And...

WHAT SETS US APART

- We are the only center in Northern Israel for Cochlear Implant that helps deaf children and adults to gain their hearing.
- Our Center for victims of sexual abuse is the only program of its kind in Northern Israel to provide comprehensive care for sexual abuse, incest and rape victims.
- Our new advanced Food Allergy Center is the only institute in the entire Northern region of Israel that treats children and adults with food allergies.

OUR PROJECTS

Hospital in a Hospital

Building a Protected & Reinforced Emergency Room

Our proximity to the Northern border requires us to build an Emergency Room that can maintain itself during times of war. The next conflict if similar to the one we experienced in 2006 would likely mean Haifa being targeted with hundreds if not thousands of missiles. We are the only major hospital in Northern Israel that does not have a reinforced Emergency Room.

A two floor structure that will provide a fully functional E.R., 200 beds & 6 clinics.

- 70,000 annual visits to the ER in Peacetime, during crises 2X+
- Total Budget: \$20,000,000
- Total Raised: \$18,000,000
- Funds Needed for Completion: \$2,000,000
- Naming opportunity Yes, although not exclusively
- On schedule to open: March 2021

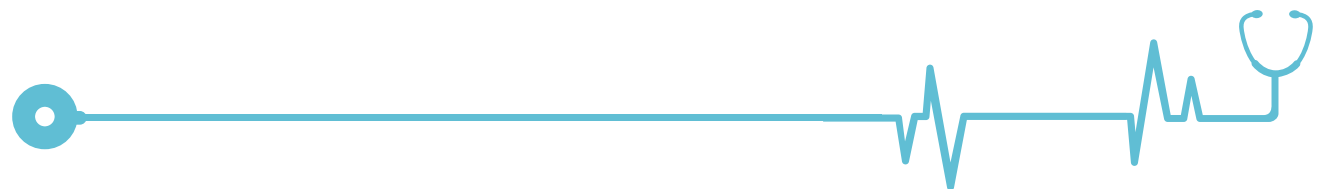

A New MRI Center

The MRI is a fundamental diagnostic tool and a requirement for a hospital of our size. We are the only major hospital in Israel that does not have a permanent MRI.

- Will serve up to 4,000 people per year
- Total Budget: \$4,000,000 (renovation and machine)
- Total Raised: \$2,000,000
- Funds Needed for Completion: \$2,000,000
- Naming opportunity: Yes, although not exclusively
- On schedule to open: August 2021

Nuclear Medicine Department & PET/CT Center

This is the only scan that can diagnose cancer. There is only one other machine for the approximately 1,000,000 residents of metropolitan Haifa. Patients currently wait for many months for access to a local unit and some travel to as far as Be'er Sheva for testing. When we have this machine there will be an immediate impact on all of the residents in our area.

- How many will benefit: 5,000 scans per year
- Total Budget: \$5,800,000
- Total Raised: \$3,300,000
- Funds Needed for Completion: \$2,500,000 (for the machine)
- Naming opportunity: Exclusive naming for the center is available
- On schedule to open: December 2020

Hematology Department

The increase in number of patients treated along with the need to improve the general services offered to meet the standards of 21st century medicine have resulted in the resolution to expand the facility: spacious department of 400 meters to include more rooms for patient care and therapy, waiting area for relatives, and rooms for physicians and other professionals.

- How many will benefit: 5,000 scans per year
- Total Budget: \$1,400,000
- Total Raised: \$800,000
- Funds Needed for Completion: \$600,000
- Naming opportunity: Yes
- On schedule to open: December 2020

Dental Clinic For Children With Special Needs

The proposed project entails the complete renovation and new construction of the 460 square - meter Dental Center with 3 complete and advanced dental units and an Oral & Maxillofacial Surgery Unit, similar to an Operating Theater will be located in the center serving the varied needs of the center and providing high level of dental care to children and adults with disabilities from Haifa and Northern Israel.

- How many will benefit: 220 children per year
- Total Budget: \$600,000
- Total Raised: \$200,000
- Funds Needed for Completion: \$400,000
- Naming opportunity: Yes
- Schedule to open: TBD
