

Treating Israelis with Special Needs

Children with Special Needs Require Special Care

- Difficulties cooperating with any in-mouth procedure and therefore require general anesthesia to be treated
- Examples: mental retardation, autism, cerebral palsy, etc. along with children who express dental anxiety

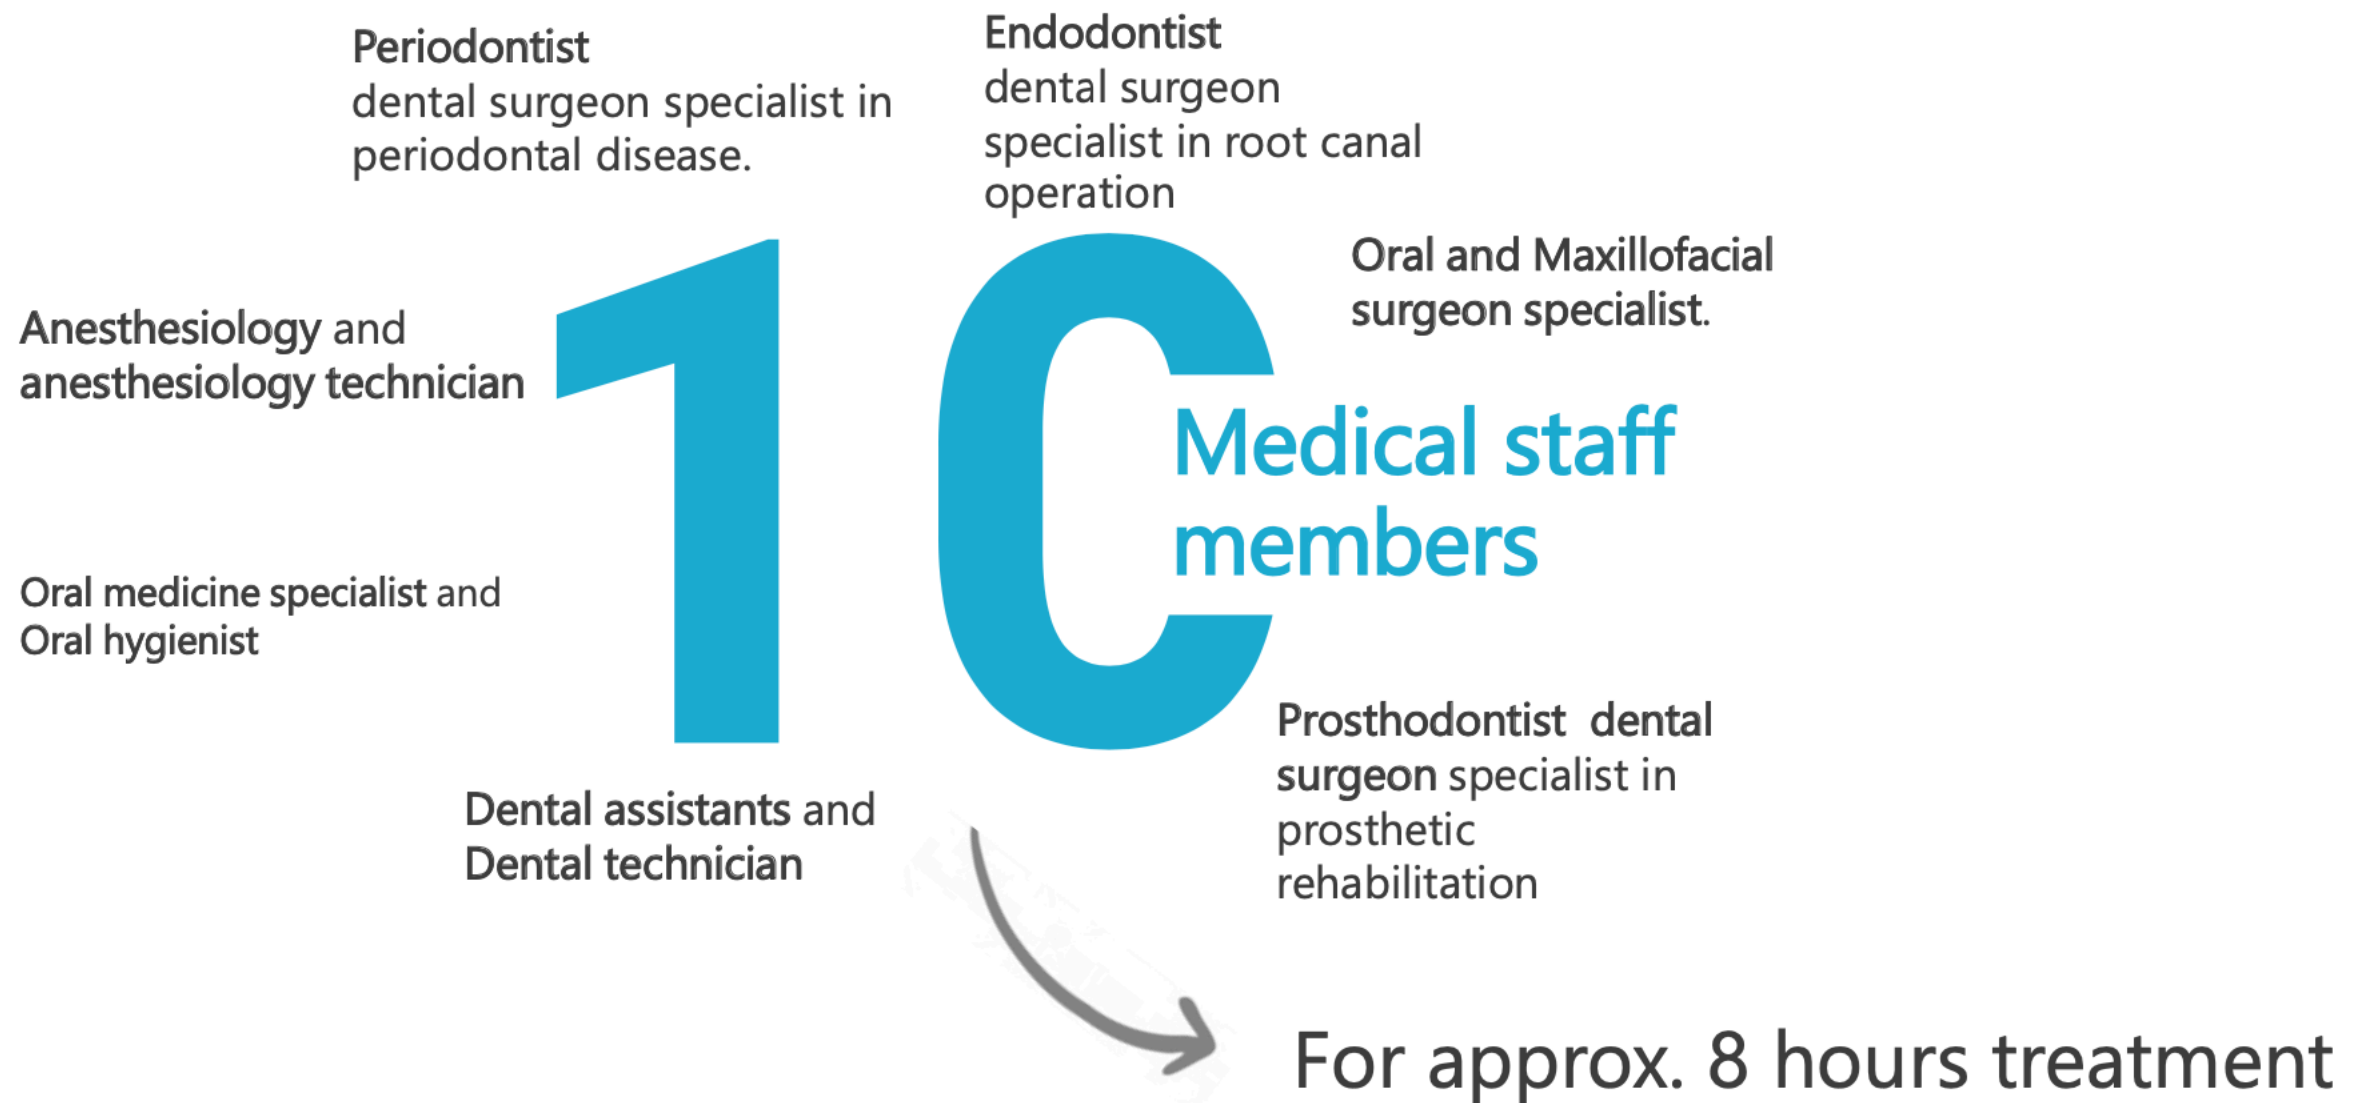

Other Israelis with Special Needs

- Adults: many of these genetic disorders lead to tooth and gum disease due to malformation, crowding, poor alignment, and grinding that last until adulthood
- Former I.D.F soldiers: those who suffer from Post-traumatic stress disorder (PTSD), some of whom are former prisoners of war

This special population cannot be treated at a standard dental clinic, need general anesthesia, and may require up to 10 medical staff members.

Currently, there is **only one Dental Center in Northern Israel** equipped to treat special needs patients.

As such, the line is out of the door...

Treating Roughly 350 Patients Per Year

200
children per year

Average treatment*

**\$2,000

***150
IDF patients with post
trauma

Average treatment*

\$9,500

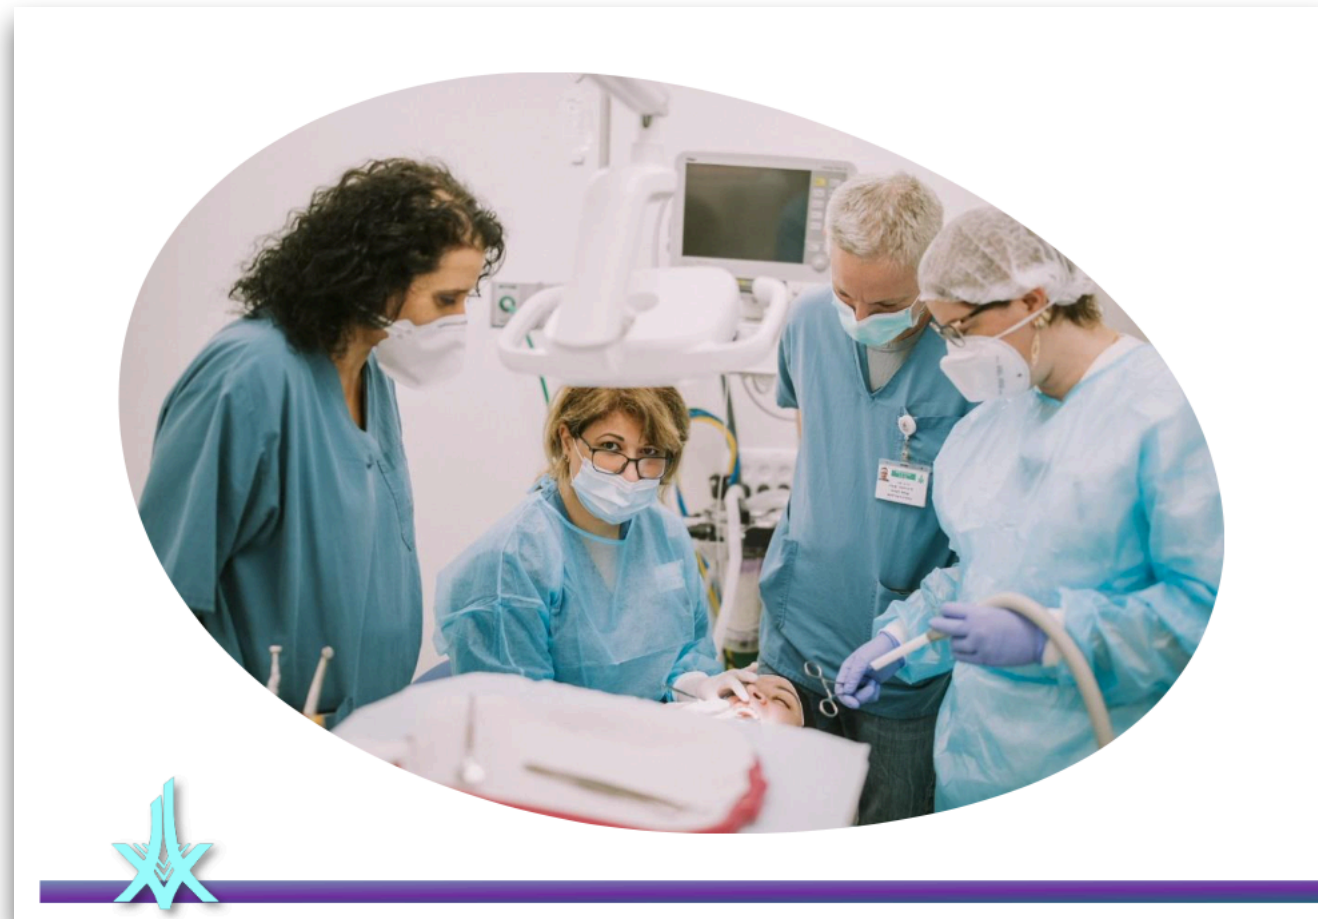

200 children per year* 8 hours of treatment per child* 10 staff members=
16,000 treatment hours annually

In the new center we expect
an increase of **25%** in number of patients.

** Average treatment with anesthesia
*** Partially subsidized by the ministry of defense

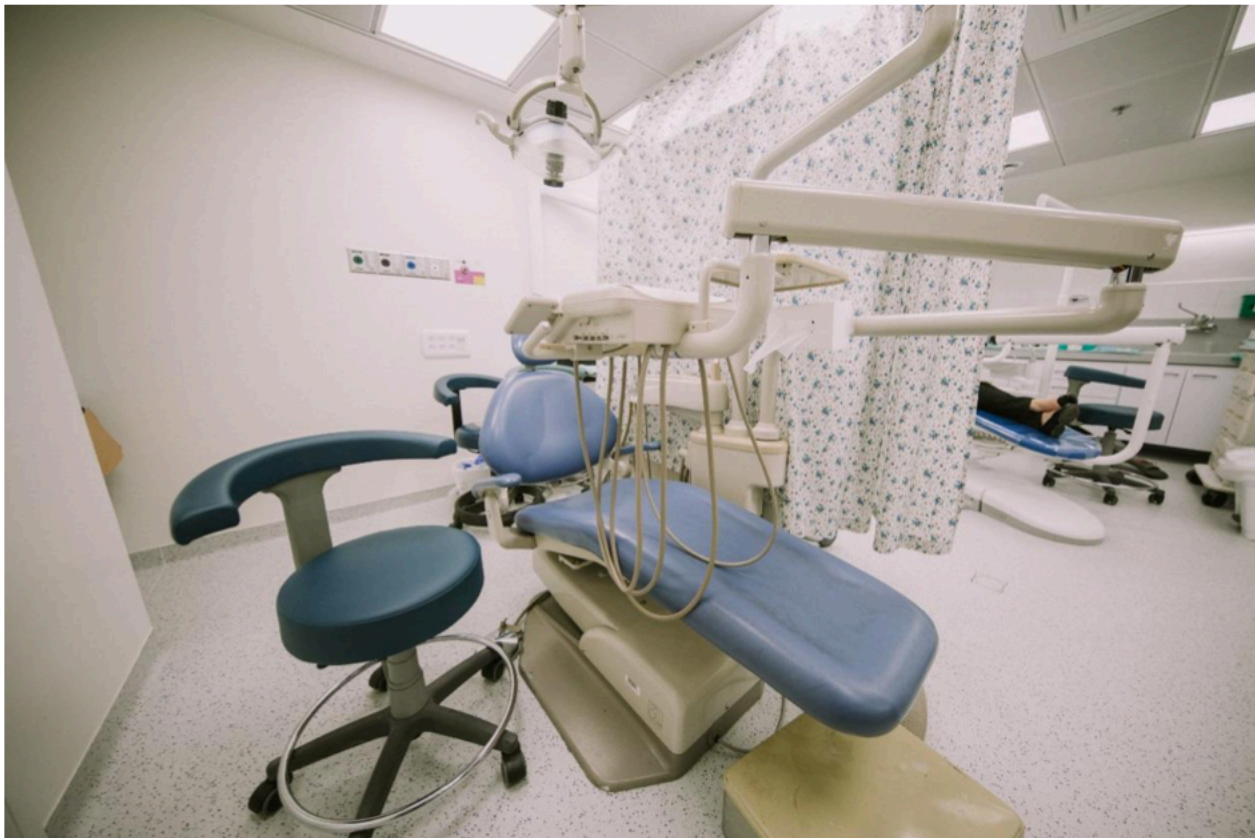

**For most,
it's their only option.**

DENTAL CENTER AS IT IS NOW

Current treatment rooms

The Dental Center was built in the early 80's and has not undergone any renovation since then. The infrastructure is old and inadequate and does not meet the standards of hospitalization and medical care in the 21st century.

The facility is very crowded and includes only one surgery room, one treatment room, a small reception area and a very tiny waiting area. Most days of the week families have to wait in the main corridor as they stand by the door for long hours or sit on a plastic chair until their child completes the procedure.

WHAT WE ENVISION

Project Description

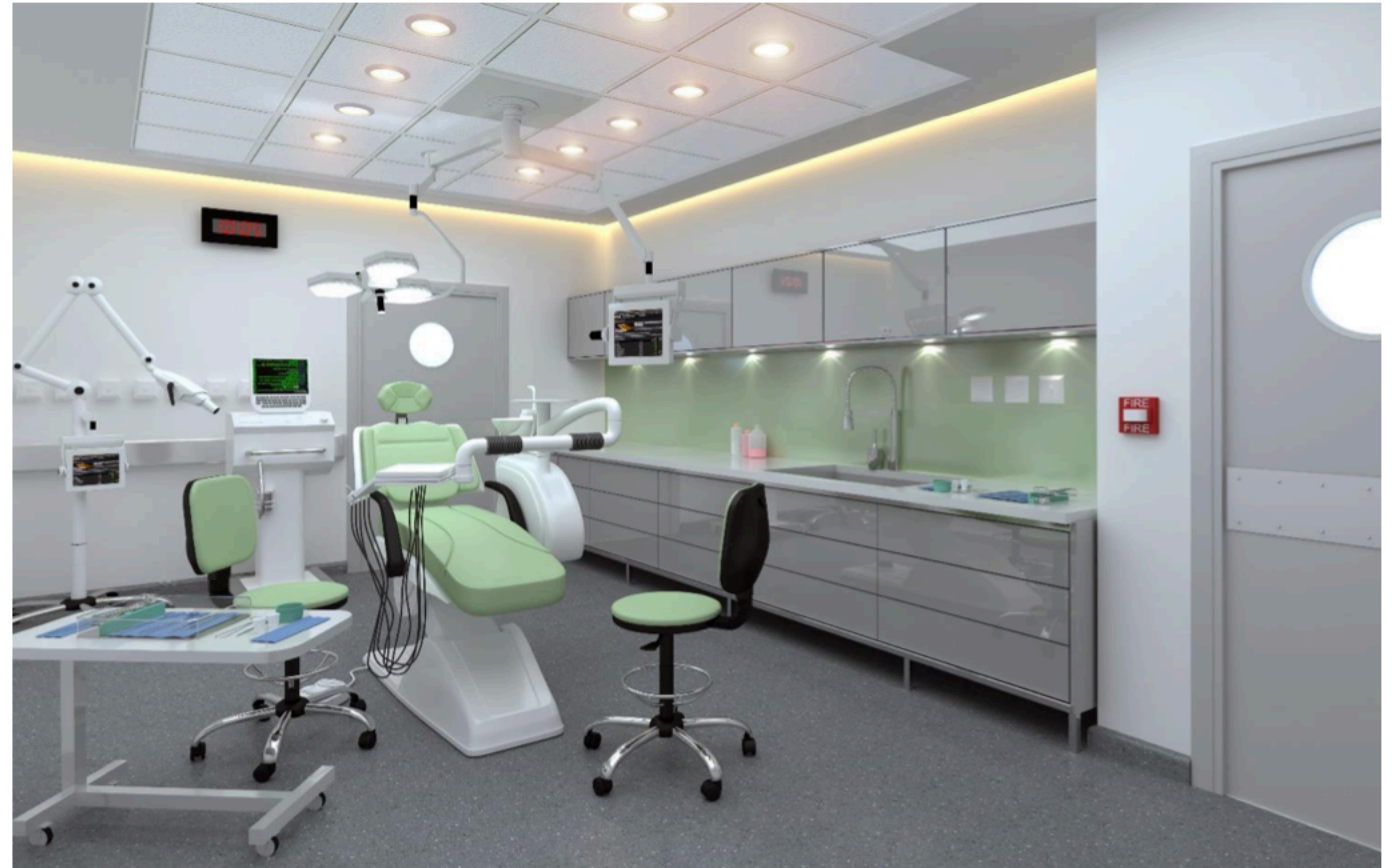

The proposed project entails the complete renovation and new construction of the 460 square meter Dental Center that will include:

- 2 State-of-the-art treatment rooms
- 3 Surgery rooms with anesthesia machine each
- Advanced X-ray room
- Waiting area
- Administration area (reception and offices for the staff)

WHAT WE ENVISION

Waiting area

Oral and Jaw surgery room

DENTAL CENTER RENOVATION BUDGET

Construction Budget

Concrete	1,538\$
Construction work	6,154\$
Waterproofing	1,538\$
Carpentry and Metalwork	26,154\$
Sanitation and medical gases	92,308\$
Electricity	188,615\$
Plastering	2,154\$
Flooring	40,000\$
Painting	12,308\$
Aluminium work	20,000\$
Air conditioning	76,923\$
Specialized metalwork	5,538\$
Industrialized elements	23,077\$
Demolition work	6,154\$
Furniture	12,308\$
Smoke detection system & sprinklers	21,539\$
Total Construction cost	536,307\$
Unanticipated expenditures (15%)	80,446\$
Total	616,754\$
Management on-site supervision and planning (11%)	67,843\$
Sub-total	684,597\$
VAT (17%)	116,381\$
Total cost	800,978\$

Medical Equipment

Dental microscope	20,000\$
Dental CT	200,000\$
Anesthesia machine (\$36,000 per unit) need 2	72,000\$

Oral interval scanner	45,000\$
Intraoral Phosphor Plates - 5 pcs.	45,000\$
The Wand (computer assisted anesthesia system)	10,000\$
Total	410,000\$

Renovation	\$801,000
Medical Equipment	\$410,000
Fund *	\$150,000

Total cost: \$1,361,000

* Scholarships for those who cannot pay

Funding a Dental Center for Israelis with Special Needs

GOAL

\$1,000,000

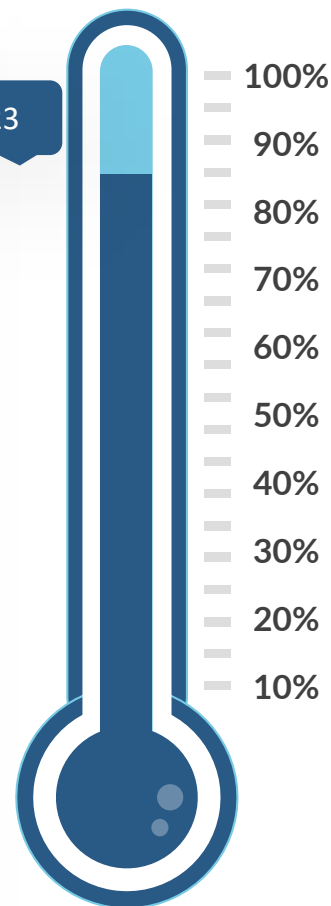

Children with special needs and soldiers with PTSD require general anesthesia to go to the dentist.

Bnai Zion Medical Center in Haifa is the only clinic in the North can provide treatment. For most, it's their only option.
