**SBJ Time Access B3** is a compact and efficient device for fingerprint based Time attendance System with high speed sensor for offices, factories, schools, homes. Easy installation and flexibility of report generation make this system an ideal office automation tool for time management purposes. The advanced fingerprint recognition system enables quick and accurate identity matching and can record up to 100000 transaction records. The major advantage of the device is the facility of fingerprint & RFID – all rolled into one, with a flexibility to use any one or a combination for attendance & access control. W: 190 l:138, h : 35
