BEXX

2022 - PRESENT

Bexx's ear for music began at the age of four when she taught herself how to play Pachelbel's Canon in D by ear. Since, she has grown into a self-taught pianist, composer, producer, DJ, and has even built her own set of modular speakers for producing to outdoor performance useage.

Having heard Berghain's sound system at Fusion festival was one of the most inspiring experiences for her. "Some music just needs air," is one of the most driving factors of how Bexx forms her sets.

Bexx's mixes of techno, rap, and deeply emotive tracks are energetic, playful, and an overall intense experience for attendees.

PERFORMANCE HIGHLIGHTS

Bexx's connection to the crowd is what has driven her career. In addition to pushing out strong beats that can get audiences dancing hard, the most common quality you will hear party goers talking about after a Bexx performance is how they loved watching her DJ. Bexx simply loves to DJ and everyone can't help but have a great time together with her.

Bexx performs with three decks and can use systems for both Serato or Rekordbox with prior notice. Photography, videography, and set recordings are all allowed. Please share media materials with Bexx!
