**URGENCY** FOR **CHANGE**  **REAL LEADERSHIP**

---

**PAST:**

Many of you realize that the election in 2024 was riddled with cheating and fraud. There is irrefutable evidence that this election was stolen from the voters. We are fighting on two fronts. Florida Second Judicial Circuit Court (Leon County) against the Department of State and the United States House of Representatives. These lawsuits are intended to bring election cheating and fraud out of the shadows and into the light. We all need to know what happened. Both cases take money for me and my team to fight.

**PRESENT:**

We have begun a soft kickoff for the 2026 midterm elections. I am upset with the uncovering of cheating and fraud not only here in District 14, but across the State of Florida, and most of the United States. I am angry and have just begun to fight for you. You deserve better, you all deserve to be properly represented in Congress. I am a fighter and there is much to do to protect you and your families. Campaigns are not cheap, especially when my opponent has unlimited resources.

**FUTURE:**

In order to secure our future, we need to elect those who truly care about those who live in District 14. A leader who will ensure our safety from not only crime, but from natural disasters by helping mitigate problems before the storm gets here. Like fixing neighborhoods that flood due to poor engineering; establishing a Volunteer Civil Corps that can help distribute lifesaving supplies and help those most in need; and pre-positioning food and water in key locations across our community so we can respond quickly when tragedy strikes.

Here is your chance to help me:

All I'm asking is for you to buy me a "cup of coffee". Click on the link or QRC and donate \$5. That's all \$5. If you can't afford the \$5, then contact my team and donate some time to help me!
