

Product Description: Safelink Defender Inherently Fire Retardant Coverall Royal Blue

Safelink IFR Coverall defends the wearer against exposed flames for short duration, allowing the wearer to exit safely in case of exposure. Coveralls are made of fabric designed to retain fire retardant properties for the entire life of the clothing. Soft and breathable fabric retains physical strength, dimensions and color after multiple usage. Withstands harsh elements, including UV and severe washing procedures. Coverall feels fresh as new after number of washes.
