

How to Rename / Delete Farms

1. **Rename Farm:** This option allows the user to rename a Farm.

A. Right click on a desired Farm. Select the **Rename** option.

B. The following window will appear.

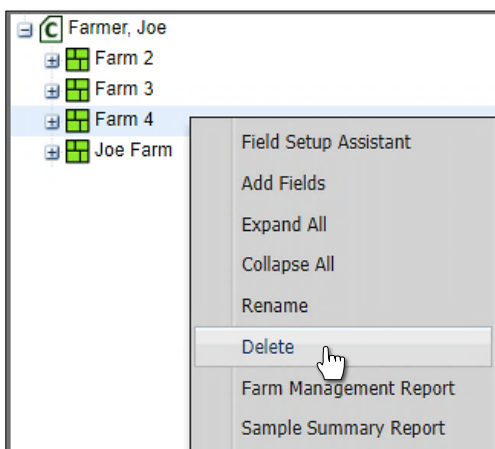

C. Type in the revised name of the Farm (above).

D. Select **OK**. The selected Farm will refresh and display the new name (below).

2. **Delete Farm:** This option allows the user to delete a specific Farm.

A. Right click on a desired Farm. Select the **Delete** option. A **Confirm Delete** indicator will display.

B. If sure, click **OK**. The Farm and associated fields will be deleted.

Note: Once deleted, the Farm and Fields are removed completely from the I.F.A.R.M. database.
