## Soil Zones Tab:

- Create flat zone spread maps and controller files for different products and spreader types.
- Entered field will generate SSURGO soil type breaks automatically.
- Soil breaks will be designated as the zones.
- Choose standard or custom products per nutrient.
- Enter product costs or application fees to show finances.
- Choose from many industry controller types (Standard Shape, Raven Viper, John Deere, Ag Leader, Case, Trimble, Falcon Tiff, etc).
- Run as many application reports as needed.
- Save Applications that can reside in the profile tree. Recall or delete them at any time.
- Run a standard Soil Zones Report to show soil designations within the field. Report labels the soil type IDs, acres, drainage permeability and expected yield for corn & soybeans.
- Ability to create fertilizer or planting controller files.
- Enter pounds of product or seed populations to determine how much product is required.
