## Building Communities Today For Tomorrow

Acting as a catalyst requires more than just doing your job. It requires building a community where salary and/or wages can't compete with the joy of helping people, those who cannot help themselves.

Cedric Tucker, Founder, May 9, 2003

### History of the Organization

Building Communities Today for Tomorrow, Inc. (BCTT), in business since May, 2000, is a private minority owned and operated corporation serving children, adolescents, adults, and seniors in the Greater Baltimore Metropolitan area who are at risk of removal from the home, community, or who are transitioning from residential settings back into the community. BCTT's motto "Real Issues Deserve Real Work" is symbolic of the dedication of its employees to providing a variety of services in the client's natural environment to enhance productive functioning and progress in their day-to-day lives. BCTT's principle place of business is 2901 Druid Park Drive Suite A # 207 in Baltimore, Maryland 21215. It comprises 1800 square feet of newly renovated office space. Housing all of BCTT's administrative and some programmatic services, this location also provides adequate conference and meeting space for technical assistance workshops, seminars, conferences, treatment programs and routine business contacts. The centralized location provides accessibility to residents and facilitates referral/community linkage throughout the greater Baltimore metropolitan area. Supported by human services and administrative staff, BCTT has leveraged its current staff of 45 full and part-time employees to substantially expand its clientele since opening its doors in 2000. Senior program managers with programmatic responsibilities in key business areas are intimately involved in devising and enforcing solutions to challenges that inevitably arise. The real-world results of BCTT's programs are continuously evaluated and fed back to the CEO and Board of Directors for consideration in critical strategic planning.

### Our Mission

Building Communities Today for Tomorrow, Inc. (BCTT) acts as a catalyst for building and developing one community at a time, by striving for innovations and excellence in the delivery of services to empower and strengthen our community's most valuable resource: . . . . **THE PEOPLE**

### Our Vision

BCTT will improve the quality of life for individuals in order to make our communities a better place for all. People from all walks of life need assistance in one form or another without regard to race, creed, religion, orientation, economics, or disability.

***“Real Issues Deserve Real Work”***

---

### Our Goals

- To provide continuity of care and comprehensive tracking of all clients as they progress through various levels of care.
- To ensure effective service delivery to the population being served while in their own natural environment, which will entails a holistic approach of treatment.
- To assist clients with their social, economic, spiritual, and emotional integration as they transition from various settings back into the community.
- To create a work environment that is stable, diverse, positive, and has opportunity for advancement and where the work of our employees is recognized and valued.

### Our Values

Accountability, Caring, Efficiency, Integrity, Intensity, Intimacy

### Our Staff

Professional, Culturally Diverse, Effective, Connected to the Community

**ABOUT OUR STAFF AND FACILITY:**

- We have a highly qualified and trained staff that has an average of 16 years experience in the mental health field.
- We recruit and retain committed personnel who are motivated to make a difference.
- We understand the challenges of the human service field and have
- Intimate knowledge of community resources.
- We specialize in evidenced based treatment modalities.
- We are ready, willing and able to go into the homes and natural environments of our clients.
- We operate under strict quality assurance standards.
- We are conveniently located near public transportation.
- Our has adequate space for individuals, family and group counseling, workshops, seminars and conferences.

**WHY REFER CLIENTS TO BCTT:**

- To obtain a range of quality services that includes but is not limited to:
- Psychiatric Rehabilitation
- Therapeutic Behavioral Treatment Planning
- Realistic and collaborative goals developed with the client and other support
- systems
- Alternatives approaches and solutions
- Specialized support groups
- Life skills development
- Successful transition back into the community
- Crisis intervention
- “Client-focused” needs assessments
- Family advocacy
- Case management
- Intense third party monitoring

**BCTT Clinicians treat the following types of problems:**

- Behavior Disorders    Chronic Mental Illness
- Mood Disorders        Family Problems
- Anxiety Disorders    Post Traumatic Stress

**Fee Structure:** COD

**Psychiatric Rehabilitation Program**

Our Psychiatric Rehabilitation Program (PRP) facilitates the development of an individual’s independent living and social skills, including the individual’s ability to make informed decisions about life choices and create opportunities for realization of goals that are sustainable. PRP services are conducted on-site at our facility and in the client’s natural environment (i.e. home, school, and other community sites) and focus on support and assistance in the following areas:

**Fee Structure:** Medical Assistance Only

**Therapeutic Behavioral Services Program**

Clients who are developmentally disabled, intellectually limited, or seriously emotionally disturbed may be referred to our Therapeutic Behavioral Services (TBS) Program. These clients must be in need of one-on-one behavioral interventions in their homes in order to remain in the community.

**Fee Structure:** Medical Assistance Only

**Mentoring Services**

We believe each youth has unique circumstances and precipitating factors which may dictate success or failure. To address problem areas while enhancing strengths, we employ community care coordinators that are well trained and engage each youth based upon specific needs. We believe each child should be offered social, emotional, recreational, and educational fulfillment to overcome any obstacles and achieve a better quality of life.

**Fee Structure:** Contract Only

### **School-Based Therapeutic Behavior Services (SBTBS)**

The goal of School Based Therapeutic Behavior Services is to assist a child to be successful in the School Based Setting. The IEP (Individualized Education Plan) identifies the student's specific needs and includes the student's classification; eligible placement; services required, such as one-on-one aide and therapies; academic and behavior goals; a behavior plan (if needed), and a progress report from teachers and therapist.

**Fee Structure:** Contract Only

### **After Care & Case Management Program**

To provide intensive community based supervision, monitoring, crisis intervention, case management and advocacy services for Youth in the state of Maryland who would otherwise be detained at a secure detention facility. Services include monitoring supervision, case management, service linkages and advocacy for youth and their families.

**Fee Structure:** Contract Only

### **Residential Services**

One Love Group Home, a Residential Transition Age Youth Service License by the Department of Juvenile Services, offers a comprehensive program that provides life skills, mental health treatment, and support services for male adolescents age 16-20 in a structured group home environment. We require that residents participate in educational and vocational programs as well as community service and healthy recreational activities. With an emphasis on creative and holistic program components, we seek to nurture and empower so that our residents are able to fully participate in and give back to their communities.

**Fee Structure:** Contract Only

*Hello my name is Rayna, and my son is in the program and he is doing very well. I have seen a very big difference in him since he has been in the program. He works well with his mentor and his mentor works well with me in going to the school and keeping up with his work when I can't get there. I'm very glad to be participating in this program and I will be glad to refer anybody to the program whose child needs help.*

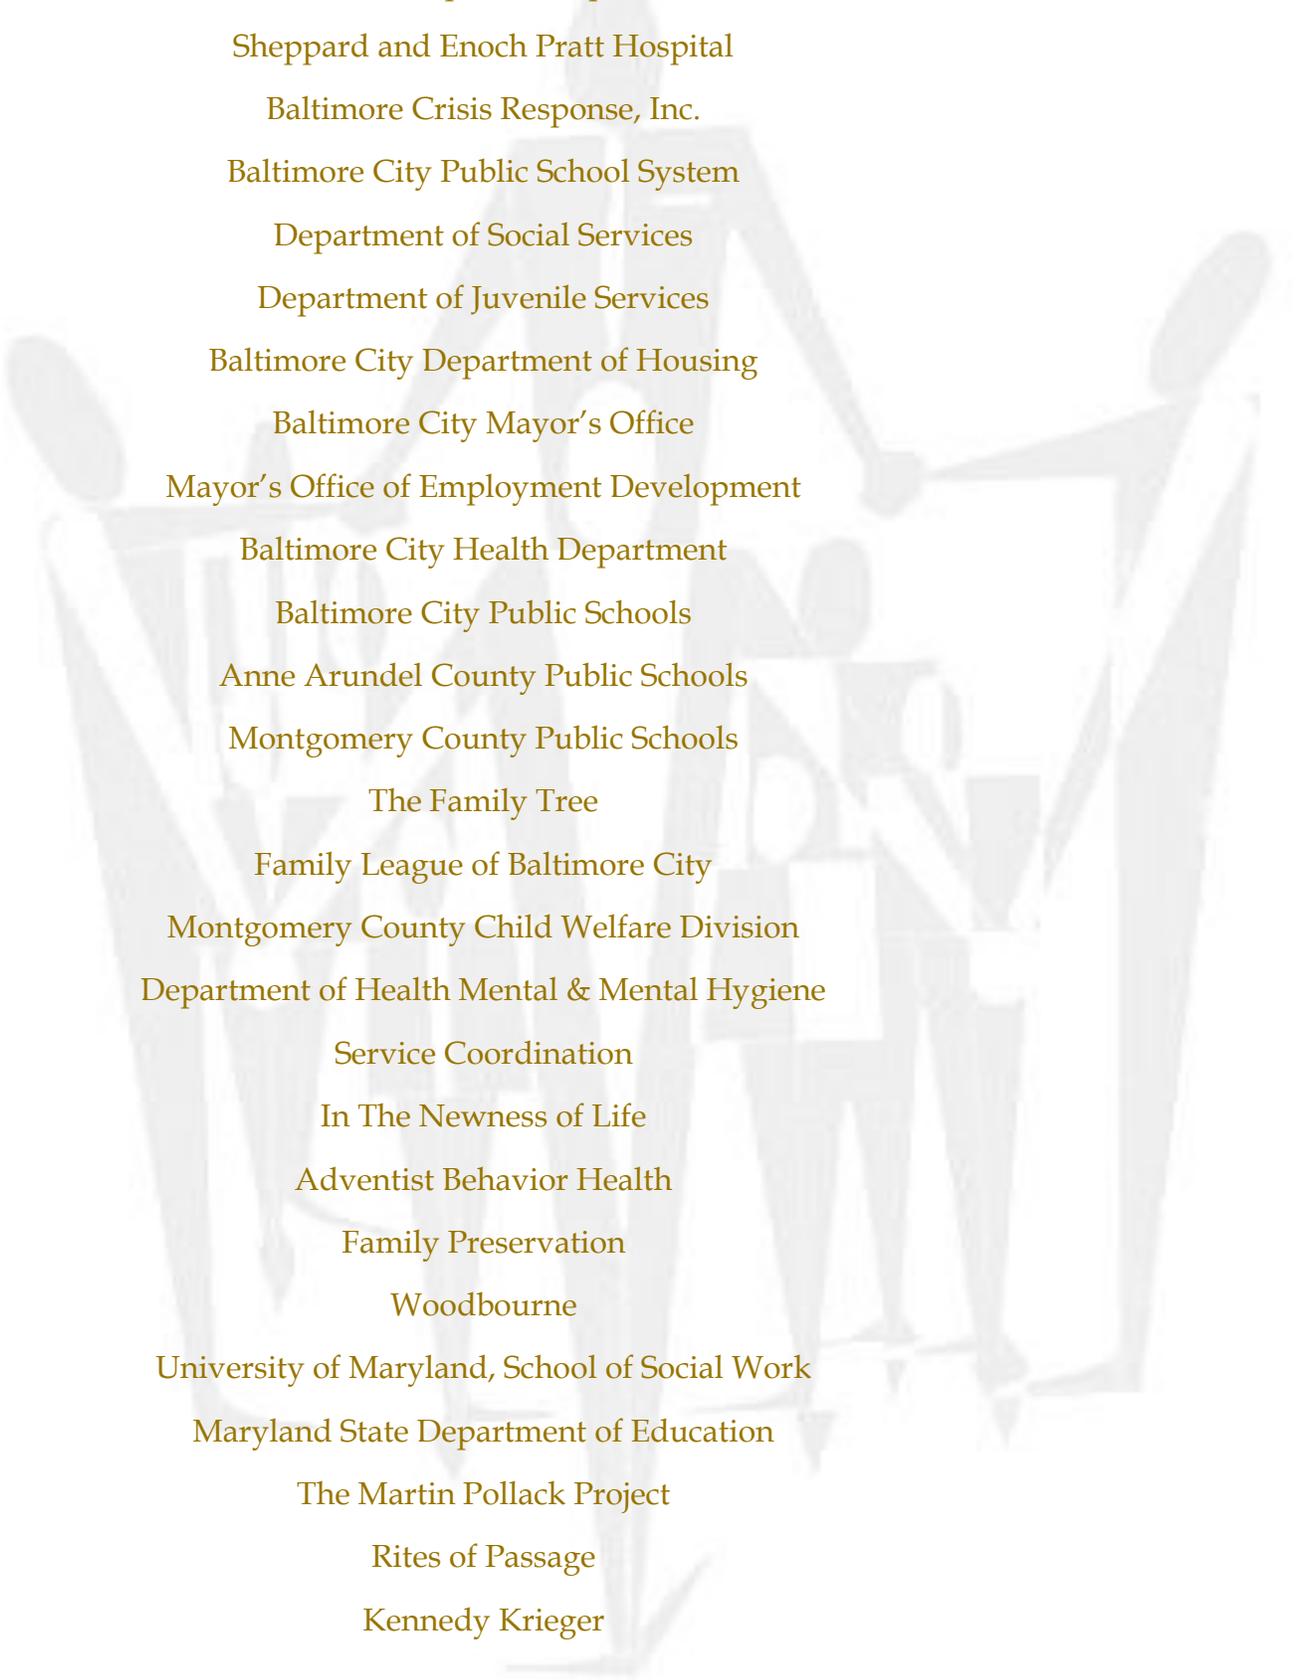

*- Rayna*

*I like BCTT and I like my worker; She is my friend. She encourages me to keep my appointments, I feel good and I get what I need.*

*- Larry*

*I believe that this program has helped me out a great deal. In the beginning, I thought that I couldn't make it knowing my son was diagnosed with ADHD. What troubled me was that I never thought that there were people out there who were able to understand and meet the needs of my kids until I met Ms. Black. She has helped me feel comfortable, asking for her help. This has opened my eyes to see that people really care. She gave a better outlook on this program. Her relationship with my boys and the way she has accepted them is so great. Words could not describe the way I feel about her. You can see a difference in the way they act, and how they look forward to the next day.*
