Standard Adhesive, for inside and outside use, average 3-5 years outdoor.

Colours: White / Yellow / Transparent / Silver / Pink / Orange / Light brown / Pipe marker blue / Blue / Purple / Red / Pipe marker green / Green / Dark brown / Black / Gold*

Width: 111mm

Roll length: 10 meters / 15 meters

** only available on 10-meter rolls*

Premium Vinyl (ST700)

High Adhesive, for general Industrial Labelling and Code labels, average 7 to 10 years outdoor.

Colours: White / Yellow / Transparent / Grey / Pink / Orange / Light brown / Pipe marker brown / Brown / Pipe marker blue / Blue / Purple / Red / Pipe marker green / Green / Black

Width: 111mm

Roll length: 15 meters

High-Tack Vinyl (HT700)

Extreme High Adhesive, for difficult surfaces, low energy plastic, lightly oiled surfaces, concrete, and wood. Fully conformable to shaped and moulded surfaces, average 7 to 10 years outdoor.

Colours: White / Yellow / Transparent / Grey / Pink / Orange / Light brown / Pipe marker brown / Brown / Pipe marker blue / Blue / Purple / Red / Pipe marker green / Green / Black

Width: 111mm

Roll length: 15 meters

Industrial Polyester (PT700)

High Adhesive, for machine plates and non-vinyl applicable surfaces e.g.: Inox/stainless steel, for long term industrial indoor use.

Colours: White* / Matte Aluminium* / Glossy Aluminium* / Brushed Silver**

Width: 111mm

Roll length: 10 meters / 15 meters

** only available on 15m rolls*

*** only available on 10m rolls*

High temperature tape (H250)

Extreme High Adhesive, for surfaces up to 250°C.

Colour: White

Width: 111mm

Roll length: 10 meters

Special Materials

VOID polyester (PV500)

High Adhesive, for security marking, removal of the label leaves VOID text on the surface, for long term industrial indoor use.

Colour: Matte Aluminium

Width: 111mm

Roll length: 15 meters

Reflective tape (RT500)

Standard Adhesive, high reflective tape for indoor and outdoor use.

Colours: Silver grey / Yellow / Red

Width: 111mm

Roll length: 10 meters

Fluorescent tape (FL500)

Standard Adhesive, fluorescent tape. When exposed to sunlight, fluorescent properties decrease quickly.

Colours: Fluorescent Yellow / Fluorescent Pink / Fluorescent Red / Fluorescent Green

Width: 111mm

Roll length: 10 meter

Photoluminescent tape (RG500)

Standard Adhesive, high quality photoluminescent vinyl for safety labelling and other markings that should be highly visible in case of sudden blackout. For indoor and outdoor.

Colour: ReGLO (glow in the dark)

Width: 111mm

Roll length: 9 meters

Transparent ribbon cartridges

Designed and manufactured by Rebo Systems, in the Netherlands. Our ribbon cartridges are of the highest quality and standard. Fully transparent to show exactly the amount of ribbon contained, so no print job is interrupted by a ribbon run out.

Ribbon Cartridges

Industrial Ribbon (SR10)

Durable ribbon for printing on vinyl.

Colours: White / Transparent / Black / Silver / Silver Grey / Yellow / Gold / Orange / Light Blue / Blue / Dark Blue / Red / Green

Width: 111mm

Length: 50 meters

Special Ribbon (SR20)

Industrial ribbon special for the PT200 Industrial Polyester.

Colours: Black / Red / White

Width: 110mm / 119mm

Length: 50 meters

Extreme Chemical Ribbon (SR40)

Better resistant to acetone, for ST700 and PT700 tapes.

Colour: Black

Width: 106mm

Length: 50 meters
