Print your own Covid-19 & Social Distance signs & labels

Because we are still dealing with Social Distance for some time to come, it is advisable to invest in a sustainable solution for the long term. Social Distancing labels increase the safety of yourself, your employees and your visitors!

NiceLabel Software and Rebo Systems printers allow you to print all your COVID-19 Social Distancing warning, safety and floor labels yourself.

With NiceLabel software you can easily design your personalized Covid-19 labels and print them up on tape widths ranging from 15mm to 210mm. Our scratch-resistant vinyl and polyester label materials are of high industrial quality and are known for their long life and high adhesive strength.

Software
- Easy to install & design sign and labels

Printer
- Cut signs and labels to different sizes as required

Sign & Label Materials
- A wide variety of coloured materials and ribbons
- Long lifespan (2 year warranty)
- Made of durable PVC
- Very flat, so no danger of tripping
- Outdoor and / or personalized versions available

Design your own Covid-19 labels

Cloud Printing Solutions

Simple user interface like Microsoft Word allows users to quickly design labels and templates.

- Extensive print & design capabilities
- Easy to use Design Wizards
- Design and edit texts, barcodes, lines, shapes and images
- Thousands of industrial symbols and icons
- Advanced design tools like rich text, linestyles, group, text frames with automatic font size
- Easily import data into your labels from data bases and spread sheets (Excel, Acces)

Label printers

The **SMS-430** is a strong, reliable sign and label workhorse. Capable of producing labels from 13mm up to 100mm wide and in over 40 different quality materials, the systems high definition output is ideal for even the smallest of text and label details.

Supplied with Microsoft® approved NiceLabel software and thousands of industrial graphics, the SMS-430 is a single solution for an enormous range of sign and labelling requirements.

The **SMS-900** series is an ideal solution to 'on demand' sign and label requirements up to 210mm wide. Fast and easy to use, the SMS-900 series helps you to get important safety messages and identification in place in minutes.

The heavy duty print head, heavy duty cutter assembly and the large range of materials mean the SMS-900 series is long lasting and a major advantage when big signs and labels are needed fast.

The Multi-colour printer that cuts any shape

The all new **SMS-R1** is the culmination of years of labelling experience and customer feedback. A multi-colour printer that will print & cut any shape you wish at an amazingly high speed. Razor sharp texts and symbols printed at a resolution of 300DPI.

Productivity, quality, durability, economy, speed, flexibility, ease of use and value for money. A technical multi-colour printer that cuts, should be accurate, fast and multi-talented! Giving the best value for money possible.

Tapes & Ribbons

Cloud Printing Solutions

For all our SMS label printing systems we have a large stock of industrial tapes, labels and ribbons in many colours and formats. The durable SMS materials are of very high quality and suitable for a wide range of applications including:

– Machine plates   – LO/TO Tags
– Pipe markers   – Warehouse and location labels
– inspection stickers – Wire marking and Cable coding
