Firewood Delivery Program

%100 Recycled fuel source

Phone: _____

Email: _____

New Customer

Service:

Firewood delivery Program includes setting up of a firewood rack with cover and routine delivery of firewood. Your first year you will be charged a one time fee for a firewood rack, the delivery and the set up. Below you will find the price of the one time fee for the rack and an internet link to our website to see the rack. You will communicate with us where you want us to set up your firewood rack and this is where it will be set up for the season. It must to be in an accesible, almost level spot that is within 100 feet of a road or driveway. Once your firewood rack is set up you will start getting firewood delivered according to the schedule below. All of our wood is at least one year seasoned hardwoods consistent of mainly oak, and some maple, ash, elm, hickory. %100 of our raw material is recycled trees from your own back yards, mainly large limbs from pruning or storm damage or dead, damaged or fallen trees. We will deliver dry wood from our trucks by hand to your rack, our crew will hand pick the top quality pieces off our truck and place them on your firewood rack. All firewood is cut between 14"-20" in length and split at medium thickness. Your rack will be filled every delivery, no matter how much wood you use. With a full rack you will be able to burn around 24 hours(4-5 fires) depending on the size of your fireplace or stove.

Full Schedule(16 deliveries): End of October, 3rd week of November, and then weekly deliveries from the week after Thanksgiving to first week in March

Half Schedule(9 Deliveries): End of October, 3rd week of November, and then Biweekly deliveries from the first week of December to the end of February.

Quarter Schedule(5 Deliveries): Monthly Deliveries from the end of Ocotber to the end of February
We need to keep the wood dry so your delivery day will be the same every week unless of unexpected issues or weather. In case of a snow event you must have walks and driveways cleared in order for us to make deliveries. In the case of a large snow event, we will deliver in advance.

Payment:

We accept check, cash, zelle or venmo. We will send an invoice by mail or email and is due before the first delivery. There are no cancelations on this contract and we do not do any refunds in the event that if when we make a delivery and you have not used wood from a previous delivery. We only fill the rack to the top and do not place wood anywhere else, prices are based on this occuring on occasion.
