Spring Cleanup/Mulch Installation:

Notes: _____

Pre-Emergent with fertilizer

Mulch Installation:
Black Dyed
Brown Dyed
Double Shredded
Triple Shredded

Service:

Spring Cleanup includes clearing property of leaves, sticks, debris, and trash. All mulch beds and tree rings will be cleaned of any debris/old mulch(if needed). All weeds in beds will be removed by hand or treated. Ground cover, parrenials and shrubs (that need pruning this time of year) will be pruned. All mulch beds and tree rings will be edged 2 to 4 inches deep at a ninety degree angle. All debris will be hauled away. *Optional: Pre-emergent weed control will be applied to the garden beds and mulch will be installed evenly at a depth of 2 inches. For some properties we complete this service in 2 trips (trip 1 cleanup, trip 2 mulch). We give you the option if you would like us to apply a pre-emergent and fertilizer product to your garden beds. The products we use are pet and child friendly and do no harm to the environment when applied to instructions.

Black Dyed/Brown Dyed Mulch: The dyed mulches are both made of double shredded hardwood and natural yardwaste debris. The dyed mulches will hold color for longer than traditional mulch to give your garden beds a fresh look all year long.

Double Shredded: Made from double shredded hardwood and natural yardwaste, this mulch is composted to give it a dark chocolate color. This mulch is less fine than the triple shredded.

Triple Shredded: Made with triple shredded hardwood bark, and mixed with manure this mulch is great for your plants. The fine mulch and manure are huge benefits to your garden beds as it breaks down over time. The Triple Shredded Mulch is our TOP SELLER!
