

**CHAIRMAN GARY DAUSMAN**

## Letter from the Chairman

Hello Property Owners of the New Paris Conservancy District.

We are hopeful to publish a newsletter once a year to communicate what your elected Board, who works for you, is doing. The District is 25 years old and requires higher maintenance due to its age. Due to the financial leadership of the previous Board members, we are hopeful to keep our strong financial position. With improving performance, and reducing costs. Over the last two years we have been able to improve various aspects of the District; while reducing the tax rate; and maintaining the \$32.50 usage rate which has not been changed since 1994.

We recently completed an upgrade to the World Missionary Press and the Sunnyside Park lift stations. With the improvements made, we believe we were proactive addressing a problem ahead of time. In the Spring of 2019; the District experienced a large amount of sewage combined with ground water that had the plant running at 80% of capacity. If the improvements had not been made; sewage could have backed up into homes.

The administration project has moved us into today's way of doing business. Long overdue; upgrades to the computer, software, hardware, fiber optic; and extra security in place protecting the District and the Freeholder's.

Freeholder's now have multiple ways to pay:

Debit / Credit Card

Drop Box

Cash

Check

Bill pay through your financial institution.

The next five years are to complete refurbishing all lift stations; to hopefully continue what has happened over the last 25 years of uninterrupted service and with no major issues to you.

The Board appreciates your input via verbally to a Board Member; or by email or a letter.

It is our job as elected by you to maintain and provide to you a service which meets the needs of the District.

Thank you.

Chairman Gary Dausman
