**Revolutionary Program Empowers Thousands of Aspiring Entrepreneurs Nationwide: JET Program Opens the Doors to Business Ownership for Inner-City and Suburban Youth**

**Los Angeles, CA – July 6, 2024** – First One Consultants Inc. proudly announces the Junior Executive Trainee (JET) Program launch, a groundbreaking initiative designed to create new businesses and jobs by empowering tens of thousands of aspiring entrepreneurs across the United States. Starting on August 1, 2024, the JET Program will begin accepting applications, providing a unique opportunity for individuals aged 18 to 24 to train, start up, and secure funding for their own businesses.

The JET Program aims to bridge the gap between ambition and success by offering free training and business ownership certification to qualified participants. The initiative targets a diverse range of industries, as categorized by NAICS code standards, and requires each new business to create at least two full-time employee positions, excluding the founder.

"By providing young adults from inner-cities to the suburbs with the tools and resources needed to become successful business owners, we are not only fostering individual growth but also stimulating economic development and job creation nationwide," said Crystal Harvell, Senior VP of Program Operations) at First One Consultants Inc.

Key features of the JET Program include:

- **Free Enrollment:** Open to all qualified participants aged 18 to 24, no degree required.
- **Comprehensive Training:** Covering essential business skills, from planning and management to marketing and finance.

- **Diverse Business Opportunities:** Participants can choose to start businesses in various sectors, including tech startups, fast food restaurants, hotel chains, convenience stores, fashion retailers, and more.
- **Flexible Legal Structures:** Options to establish LLCs, C or S Corporations, for-profit or non-profit entities.
- **Supportive Community:** Emphasis on good work ethic, teamwork, and strong leadership qualities.

Ideal candidates should have a computer with internet access, a strong sense of commitment, a success-driven mindset, dependability, honesty, and personable traits. Graduates of the JET Program will be well-equipped to launch their businesses, contribute to their communities, and drive economic progress.

For more information or to apply, interested individuals can call 1-800-273-4988. Join us in transforming the entrepreneurial landscape and creating a brighter future for our nation's youth.
