4. Old Business

a. President's report:

* Still looking for a storage box

* Bridge/washout maps are to be reviewed. MSA may help with maps

- VK and Scandic sleds for sale, \$2,000 OBO
- Need to finish access to upstairs in the clubhouse and complete kitchen as funds are available
- New groomer sled is on order

b. Vice President's report:

* LSR-ATV club met with us. A joint trail is currently un-groomable. Hoping they will help repair it.

c. Trail report:

- Plastic yellow chain needs to be put out... (McLean & Quarry Rd) in lieu of other methods to close trails
- Need list of signs to place at strategic places/landowner locations
- No new "re-routes" as yet for the upcoming season
- Newfield: Due to fire behind Hedgehog, the foresters cut several trees and left stumps. We need to mark them for grooming. Also, could use a few loads of crushed rock in water hole behind Hedgehog
- Newfield needs TNC cleaned up. A tractor may be helpful to push trees/logs back as more efficient than cutting and hauling
- Newfield: Walker Woods Truss Bridge needs to be inspected. When it's time to replace, perhaps straighten the trail where it is located
- Limerick: Time to start brush cutting on trails

- Limerick: Business park route is all set
- Limerick: Winnie road needs to be checked for a potential blockage
- Limerick: Joe will start bush hogging soon
- Limerick: FR Carroll field has several piles of gravel in the trail area. We'll call to determine how to navigate around them.

d. **MSA / Membership Update:** Rt. 11 club was the 3rd largest membership in the coastal region!!

e. **Board update:** none

5. New Business

- * NNOF grant—have not heard from them. Bob will follow up
