CANTURI CUBISM BRACCIALE TIMEPIECE

The Cubism Bracciale Watch that transforms into a bracelet is a high jewellery timepiece. Designed by Stefano Canturi, this bracelet-style watch features natural baguette and carré cut diamonds in sculptural formation, reflecting the Cubist-inspired design language the House has evolved over two decades.

Crafted not just to be worn, but to be treasured the Canturi Bracciale Watch is a legacy piece, made to become an heirloom.

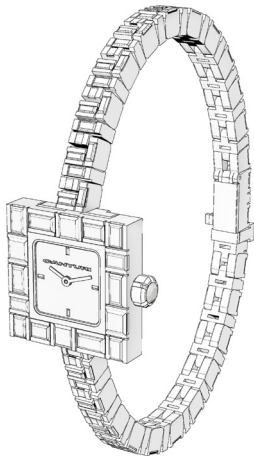

Handcrafted in the Canturi Studio with quiet elegance and Swiss precision movement. A timeless piece that feels both reminiscent of the golden age of jewellery and distinctly of the future.

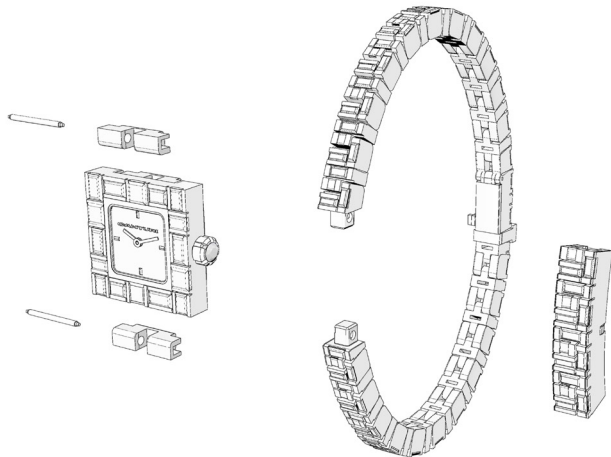

LIMITED NUMBER SERIES

A selection of the first Canturi Cubism Watches produced are part of an exclusive limited series. Each limited number series watch is individually numbered, providing collectors with a unique piece of history that celebrates both craftsmanship and rarity. The production number along with a serial and model number of your watch is engraved on the 18k gold back plate. This guarantees its authenticity and limited status.

NATURAL SAFFIANO ITALIAN LEATHER STRAP

Included is a leather strap crafted from the finest materials for superior comfort and style. Interchangeable for a refined, relaxed look.

CARE & MAINTENANCE

To preserve the beauty and precision of your Canturi Cubism Watch, we recommend following these care instructions:

1. CHANGING STRAPS:

Always have your strap changed by an authorised Canturi specialist to maintain the integrity of your warranty. Authentic leather straps can be purchased directly from Canturi Salons or E-Store.

2. LEATHER STRAPS:

Keep the leather strap dry, as it is not water-resistant. Extended exposure to water can cause premature wear.

3. BATTERY REPLACEMENT:

Replace the battery every 2–3 years through an authorised Canturi specialist to preserve the watch's warranty.

4. WATER-RESISTANCE:

Have the water-resistant seals checked every 2–3 years when the battery is replaced. If condensation appears under the glass, have the seals inspected immediately.

5. MOVEMENT SERVICING:

The movement should be inspected every 3–5 years to ensure accurate timekeeping. If the watch shows significant gain or loss in time, servicing may be required.

6. GENERAL CARE:

Do not use any liquid to clean the watch. Clean the watch using a soft microfibre cloth to maintain its polished finish.

THE CANTURI INTERNATIONAL WARRANTY

Your Canturi Cubism Watch is guaranteed against manufacturing defects for **5 years** from the date of purchase. The warranty is transferable and follows the watch, not the owner, ensuring that its value is maintained.

COVERAGE:

- Defects in the materials used
- Issues with the movement or dial

EXCLUSIONS:

- Damage caused by accidents, misuse, wear and tear, including scratches, chips, dents on the case, buckle, crystal glass and any wear on the strap
- Normal wear and tear

- Damaged, chipped, broken or missing gemstones
- Damaged caused by unauthorised repairs
- Water damage beyond the specified resistance

To make a warranty claim, present the official warranty card and watch at a Canturi Salon, or contact us at *info@canturi.com*.
