INFORMED CONSENT CHECKLIST FOR TELEPSYCHOLOGICAL SERVICES

Prior to starting video-conferencing services, we discussed and agreed to the following:

- There are potential benefits and risks of video-conferencing (e.g. limits to patient confidentiality) that differ from in-person sessions.
- Confidentiality still applies for telepsychology services, and nobody will record the session without the permission from the others person(s).
- We agree to use the video-conferencing platform selected for our virtual sessions, and the psychologist will explain how to use it.
- You need to use a webcam or smartphone during the session.
- It is important to be in a quiet, private space that is free of distractions (including cell phone or other devices) during the session.
- It is important to use a secure internet connection rather than public/free Wi-Fi.
- We need a back-up plan (e.g., phone number where you can be reached) to restart the session or to reschedule it, in the event of technical problems.
- If you are getting reimbursed by your insurance company, you may want to check with them that video sessions will also be reimbursed.
