

REPAIR SERVICE

Accidents happen, so that's why our repair service is there to help you out. Simply request a free, no obligation repair pack and send your broken glasses in for us to analyse in our optical laboratory. We will work out a price and a timescale for your repair.*

*You can request your glasses back if you decide not to go ahead with the repair. We will then send your glasses back for free.

PRICE LIST - FEBRUARY 2021

HOW IT WORKS

New Frame Orders

1. Pick 4 frames from the website
2. We deliver the frames with our free, no obligation home trial pack and you can keep them for up to 7 days *
3. Pick the glasses you like or return them and pick some more with our free returns **
4. We discuss your lens requirements over the phone or online and then order your lenses after payment
5. Your glasses are then delivered to your home, ready to wear

*card details are taken for security against the frames in case they are not returned or if they are returned damaged

**you will be required to take a photograph of yourself wearing your chosen frames for our facial measurement software

Reglazes (Lens Replacement)

1. Request a free reglaze pack online
2. Send your glasses into us with our specially designed free postage reglaze box*
3. Your lenses and frames are analysed in our optical laboratory
4. We then call you to discuss your lens requirements, the price and timescale to replace your old lenses
5. After payment, your lenses are custom fitted to your frames and your glasses are then delivered to your home, ready to wear

*a copy of your prescription will be required for prescription lenses. This can be sent in with your frames or emailed to us

Diamond Plus - £98 - (1.74) Up to 45% thinner. Antiglare, scratch resistant, UV protection - **for high prescription**

SINGLE VISION

Single vision lenses are included in the prices above for lens thicknesses. No extras are charged for ordering a single vision lens type.

Long Distance are lenses for activities such as driving, watching television and general use.

Intermediate (computer) are lenses that are designed for a focal point at an intermediate distance such as a computer screen, normally at arms length.

Reading lenses are made for close work such as reading, knitting and other activities that require close work and detail.

VARIFOCALS

All Varifocals come with:

- ✓ UV Protection
- ✓ Anti Scratch Coating
- ✓ Anti Glare Coating
- ✓ Hydrophobic (water repellent)
- ✓ Clear HD vision
- ✓ Custom made to your measurements
- ✓ 60 day, non tolerance guarantee
- ✓ Aftercare service
- ✓ 2 year scratch lens replacement*

*on specific brands and until your prescription expires if before 2 years

Only premium suppliers such as **Essilor**, **Hoya** along with others are used. We select the ideal lens, brand and type to suit your personal needs and requirements.

Bronze

£120

A good entry level lens that will give you 3 good areas of vision.

Silver

£176

Wider field of vision compared to the Bronze. Vision becomes more comfortable.

Gold

£198

One of our most popular lenses, the Gold lens offers great fields of vision, opening up all areas for more relaxed vision.

Platinum

£228

Platinum lenses offer wider fields of vision from the Gold, enhancing vision and comfort.

Diamond

£298

The latest lens technology on today's market. Diamond lenses offer some of the best vision possible with the widest field of vision possible, relaxed, clear, crisp vision at all levels.
