Subject: Anmore Green Estates

Hi Marc,

As discussed, attached is the MOE Action Plan response (which includes an overview of the history and site conditions, and proposed methodology) and the Results Memo (from the first sampling round) for Anmore Green Estates. I've also included a google earth location to help you find the site.

Our previous contact at MOE (Dave Hebert) has since left the Ministry; Dan Bings is covering Dave's responsibilities for the next three months, but is away until next week. I wanted to be sure your department had a heads up before the results have to be released to the legal teams (tomorrow at 5:00 pm).

If you or anyone else has questions, please don't hesitate to call; my cell number is 778-212-3773. I'll also be in Vancouver Wednesday and Thursday and can meet on site if that is a benefit.

Cheers,

Fawn Ross, B.Sc., R.P.Bio.

Hi Fawn: good to talk to you and Marta yesterday about this interesting situation. Thanks for the heads up and information you provided.

Not sure what we can provide in terms of any assistance or support, as this is a matter for the Ministry of Environment to deal with.

However, we will keep this under advisement and see where this goes.

Marc Zubel, P.Eng

Hey Marc,

Thank you for your input yesterday & fair enough. I did get a hold of someone at MOE today, so at least no one will be caught off guard.

My original contact at MOE had said to keep Fraser Health in the loop; would you like me to stay in touch with you as other results come in?

Cheers,

Fawn Ross, B.Sc., R.P.Bio.
