

Dear PCA Families,

We have an important survey coming up, and we want to encourage you to participate. The New Mexico Public Education Department is conducting a survey to learn about student well-being and what we can do to help students succeed.

The survey will be conducted from October 28th to November 29th, 2024, and we ask all PCA families to participate and share their thoughts.

Families, starting on October 28, 2024, you can participate in the survey by [clicking on this link](#).

We're conducting these surveys for a couple of important reasons:

- We want to help our students learn and grow by making their education more engaging and inclusive, with a focus on both academic and social-emotional learning. We also want to make sure that our approach is culturally and linguistically responsive.
- We aim to provide all students with equal access to support services and learning opportunities, so they can succeed in school, no matter their background, family income, or abilities.

Students and staff interested in knowing more about the survey questions they'll see can see question samples [here](#) and [here](#). You can also see samples of questions for school staff and teachers [here](#) and [here](#).

Thank you for helping to make PCA an optimal learning environment for all of our students!
