HOW CAN WE TURN A DYSFUNCTIONAL TEAM AROUND?

Do you have a team that needs help being more effective? Do you recognize that they could be so much better?

Traditional team building exercises are just bandaid's that never address or correct the issues. We have a workshop based on The Table Group's *5 Dysfunctions of a Team* that yields immediate, sustainable and impactful results.

OUR WORKSHOP:

- Looks at individual and team dynamics to identify root causes of dysfunction
- Reframes accountability so that people are accountable to each other, not just the team leader
- Provides a self-sustainable framework so the team can ensure continued success
- Can be tied to actual metrics to demonstrate value and impact

We can help you turn a nightmare into a dream team
