(Connect with me over LinkedIn if not connected yet)

Dear Alumni, Colleagues and friends,

Hope you guys are doing fine and safe while fighting in the Covid-19 Era.

First of all, I have a news to share with you all!!!

I am building a first of a kind smart and autonomous responsible Digital Summit Platform around Energy & Natural Resource Industry covering a range of blended themes on Energy Transition, Digital Transformation and Sustainable Development Goals what I have coined as **Responsible Digital Energy sector**. Currently there are around 150 million professionals belonging to this niche segment serving the community in different roles and capacity. ([Source LinkedIn June 2020](#))

This is a first of a kind collective impact based intellectual productivity platform to connect people from Arts & Creativity, Science, Technology, Engineering, Mathematics and Business management discipline around Energy Industry to help them discover learning, earning, innovating and starting up opportunities.

<https://enheroes.co/digital-summit>

The Platform intends to set up a [Responsible Digital Intellectual marketplace while promoting responsible thinking culture across Oil&Energy Communities](#). But most importantly this cannot be done without help and support from all of you. I am seeking your active participation to help the Digital Energy community develop an active resource support through my mission. The Platform shall debut with a **ENHEROES RESPONSIBLE ENERGY GLOBAL Digital Summit 2020** themed on Responsible Digital Energy over five Digital Superclusters covering North America, South America, Europe, Middle-East-Africa and Asia Pacific regions. Never ever such a collective impact mission has been accomplished before over a responsible digital platform around Digital Energy sector.

I thought you might like the idea and be interested to know more about my upcoming global projects related various opportunities available

## [Please Click Here To Register](#)

The ENHEROES RESPONSIBLE ENERGY GLOBAL DIGITAL SUMMIT 2020 registration form shall be available immediate after you subscribe to ENHEROES exclusive Global Impact Peer Network. **There shall be an early bird registration offer to all who sign up before 31<sup>st</sup> July 2020.**

The collective agenda will be to ensure that during the Global Summit each and every registered participant gets enough opportunity to fill up their employability gaps, avails internship opportunities and facilitate professional engagement suiting their skills and aptitude required in the responsible Digital Energy Business.

I thought you might like the idea and be curious to know more about my upcoming global projects related various opportunities available I would like to know about your interest too.

## **Now it's time to break some media news!!!**

My venture has been featured by Southeast Asia's top entrepreneurial magazine [YourStory](#) and Yahoo Finance on 22<sup>nd</sup> June 2020. Click below to check our story if you have not checked.

# ENHEROES RESPONSIBLE ENERGY GLOBAL DIGITAL SUMMIT 2020

## Brief outline of the activities of a week long ENHEROES RESPONSIBLE ENERGY GLOBAL DIGITAL SUMMIT 2020

- Keynote Speeches & Startup Story Telling
- Executive Workshops
- Industry-Academic Digital Roadshows
- Professional Networking
- Professional Mentoring & Coaching

The Global Digital Summit Shall be accessible from any part of the world over a secure OTT platform from any computer or mobile device.

## Why should you join this Digital Summit?

1. The event shall be global in nature and first of a kind in the Oil & Energy industry so don't miss the chance to be in the league of early participants experiencing a new digital league.
2. A range of activities like global tournaments, Startup Show casing, simulation war games, business planning contest, product/service deigning, business model innovation over hundreds of themes engaging thousands of key Industry-academic decision makers from Oil&Energy world shall be the key take away of the summit.
3. There will be shared opportunities of knowledge exchange, Jobs & Internship tips, Startup hacks and information on Research grants, Scholarships opportunities for higher education and research. There would be a contests and a tons of prizes to be won The detailed scope of the to be followed over email to all registered patrons as per matching their choices and interest.
4. **Its Free!!!** Yes, **Registration is free, there are no charges to register for the Digital Summit.** I am offering **One full day complimentary Digital Vouchers of your choice WORTH \$100.00** to all early participants in my network to ENHEROES RESPONSIBLE ENERGY GLOBAL DIGITAL SUMMIT 2020.

## How I reached at this level?

Four years back I took a challenge to use technology as a medium to address the lack of professional engagement in my peer network when I failed to get any scope to use my skills and experience despite being ranked among top achievers. It is a responsible culture gap in the current system which persists till date. It was an **Ah! moment** for me and I decided to pursue an entrepreneurial mission so that I could create opportunity for millions such deserving peers. I took a big bite of personal sacrifice to stand up to my goal and find a solution to this larger issue.

### Indian Tech Founder Invents a Smart AI System to Build Covid-19 Proof Digital Energy Super Clusters

#### PRESS RELEASE

KUALA LUMPUR, Malaysia, May 03, 2020 (Newswire.com) - Today ENHEROES GLOBAL ENERGY, an Energy Innovation Startup announced the filing of a utility patent (Application no PI2020002081) in Malaysia, for an AI system invented by its founder [Shubhabrata Samantaray](#), an alumni of IIT Dhanbad. The industry first invention claims to play vital role in building future Digital Energy Super Clusters through effective human-machine collaborations. Using a smart AI system called DRL-ENN, the invention can be used as an optimal tool to fill up Covid-19 induced intellectual sustainability gaps. The invention defines Intellectual Sustainability as a fundamental right to Learn- Earn-Innovate-Startup in a modern society.

Shubhabrata Samantaray  
Founder & CEO ENHEROES Group

#### Future Roadmap of commercialization of the invention

"The patent pending invention is being converted into a sustainable digital product and a commercialization model is being matured. A ready to deploy minimum viable product (MVP) is set to release in few weeks for testing early functionalities. Soon a global digital roadshow shall be arranged to let the world know about the invention utilities and it's purpose", says Shubhabrata.

Today I am one step closer to that goal. I believe I can address the lack of **intellectual sustainability in the 100 million plus size Digital Energy Community** through a responsible digital system that I developed after these years of independent research. I am glad to announce that I have reached a major milestone now. I have successfully filled a **utility patent for a Responsible AI-Blockchain invention** after validating it for its novelty, industrial utility and inventive features which is set to become **World's First Ultra Smart Collective Intellectual Sustainability Management System.**

Filing the Utility Patent is a major accomplishment following a rigorous in house R&D effort committed for the last 3.5 years. I would like to thank each one of my peers in the community who have blessed me and trusted in my abilities. Now I am on a stage to leap forward to give back my community. you can find the [press release about the invention at this LinkedIn post.](#)

***"I built World's first Ultra Smart Collective Intellectual Sustainability Management System entirely in-house without external funding while Bootstrapping (Utility Patent Application no PI2020002081)"***

# Vision 2030: To Enable- Empower- Engage 1.0 million Talents

I have undertaken a pilot project in this regard where the Oil&Energy industry shall collectively help 1000 young students and professionals discover learning, earning, innovating and starting up opportunities all during a **single career innovation boot camp** event by end of Q3 2020 during the Digital Summit creating a new kind of example for which registration process is about to begin. I have a mission to connect, empower, engage **one million talents** with the Digital Energy Industry for a rewarding, responsible career through a series of Digital Summits by end of 2030. **The last date to register for the 1<sup>st</sup> cohort of Career Innovation Boot camp is 31<sup>st</sup> July 2020 and there are limited seats available. The expression is available in the registration form.**

I am indebted to my alma matter IIT(ISM) Dhanbad, MIT Design Thinking faculty, my professors during the MBA program at Cardiffmet UK, whatever I have become it's because of these great institutions and faculties.

I am building a core think tank and an early leadership team and hiring virtual interns for this project now. I would be looking to hear from youngsters with a vision & passion for co-creating a Responsible Digital Energy Community.

PS: I want a larger part of the community to be benefitted from the Global Digital Summit Platform, I would be extremely grateful if you could kindly share my invitation letter with in your network to help me reach my goal.

Kind regards,

**Shubhabrata**
