

# Software Development Bootcamp

Study to become a Front-End Software Developer by attending the Software Development Bootcamp sponsored by **Branch Insurance**.

As insurance companies allocate more resources to technology functions, operations will need to be reshaped to make the most of their new coding tools. Why not learn these new cutting-edge tools to become a technology employee.

**CLASSES START:**  
**Monday, September 13, 2021**

# THE SKILLS YOU'LL GAIN?

The Software Development Bootcamp is a multi-layer training Cohort that spans over the course of 12-weeks. We will help you build a strong foundation by teaching coding curriculums and providing resources for you to become a Front-End Software Developer. We will also provide exam prep tools. Our expertise, knowledge and skills will prepare you for Coding Software Certification Exams, entry-level apprenticeships and jobs.

**This Cohort is designed for individuals with little to no computer coding experience. We will start at the basics of coding and data structure to bring you up to speed.**

These useful and valuable skills are in demand for many Front-End Software Developer jobs. In addition, the skills you'll learn at our Bootcamp are transferable to assist you with designing your own software programs.

## WHAT YOU'LL LEARN:

- HTML, CSS, & JavaScript Web Publish
- Understanding the GitHub Flow
- Introduction to React
- Overview of React Router
- Application Programming Interface (API)
- GraphQL
- Node.js

## FRONT-END DEVELOPMENT

# Course Structure

The Cohort will be segmented into various sections of learning. At each step you will receive a Certificate of Completion to show your skill achievement. You'll attend in-person classroom instructions and partake in a variety of individual and team exercises. Classes may be held in-person and/or virtually using Zoom.

**Proposed class times are subject to change according to our registered applicant's schedules.**

9:00 AM - 2:00 PM (In-person)

or

5:30 PM - 9:00 PM (Virtually - Zoom)

Weekends – four (4) in-person networking classes

Guidance will be provided throughout the course with materials to help you succeed. You will learn under the guidance of the SMARTNET and Branch Insurance instructors to receive real-world coding assignments.

You'll receive homework assignments to provide you an opportunity to practice what you've learned.
