

Dennis LaSassa Jr Plumbing LLC

Master Plumber #11790
NJ DEP #0034488

Septic System Certification

RESULTS: SATISFACTORY

Date: 01/07/2026

2823 Schooner Lane

Hammonton, NJ 08037

Municipality: Mullica Township

County: Atlantic

Block: 4304 Lot: 6

To Whom It May Concern,

Field Inspection Report: The 1,000-gallon septic tank and the tank lid were inspected. All liquid levels were observed to ensure adequate levels. Both were evaluated for cracks or leaks along with the inlet and outlet baffles. (Satisfactory) The distribution box was located; the structural integrity was evaluated. (Satisfactory) The absorption area was located, and liquid levels were inspected. (Satisfactory) The inspection reveals that the septic system and all its components are functioning properly at the time of inspection.

AGE OF SYSTEM: Like other components of a home, a septic system has a limited serviceable life span. Systems older than twenty years are generally beyond their peak operating efficiency and are likely to require repair or replacement, even if components of the system are functioning properly at the time of inspection. Please read the disclaimer on the last page of the onsite form carefully.

Dennis LaSassa Jr Plumbing LLC inspects all onsite waste-water treatment and disposal systems according to N.J.A.C. 7:9 A according to NEW JERSEY DEPARTMENT OF ENVIRONMENTAL PROTECTION

This Report is not a warranty

Dennis LaSassa Jr Plumbing LLC provides no warranty, express or implied, including any warranty of merchantability or fitness for purpose, or any other warranty whatsoever, that the system will function properly for any period of time whatsoever, or otherwise will not malfunction or cause contamination of the ground or waters of the state of New Jersey.

If you have any questions, please do not hesitate to contact us. I certify that I am authorized to sign this certification on behalf of Dennis LaSassa Jr. Plumbing LLC.
