## A Buddy-a-Thon powered fundraiser for your school. Incredible experience specifically designed for preschool & elementary schools

Our Buddy-a-Thon program was created with many of the features that make "Thons" a popular choice in fundraising. No overpriced items to sell, no money to collect and no product to deliver

However, the Buddy-a-Thon offers even more advantages to most other "thons", some of which are very important in today's environment.

- No assembly necessary. However, it is helpful to have a brief 20 minute kick-off assembly to get the kids excited about the program. But, all you really NEED to do is send home the information about the program.
- This link https://bit.ly/47GaLgC and QR Code will take you to an "Example School Site" so you can get a better idea about the Buddy-a-Thon.
- No need to have people from Party Animals Mobile in your school to "hype up" the students or disrupt the classrooms. The rewards students earn are incentive enough.
- On your Buddy-a-Thon "Stuffing Day", you can bring your students to our classroom or whatever works best for you. We also have vacuum sealed packets of stuffing if you would rather have your students stuff their Buddy at home or in class.

How the Program Works: Students that send 10 valid emails/texts earns two rewards. All students who at least \$50 or \$75 (Schools Choice) in donations raised will receive a Buddy! They are a full 16" size, department store quality, and come with a Birth Certificate and a Heart Insert. Every classroom teacher with at least 40% participation gets a free Buddy! The emails or texts will invite family/friends to donate to your school for things you need. We give you \$40 for each student sending 10 emails. We find that 10 emails average about \$65. If yours average more, then we give you more. The \$40 is guaranteed! Our schools average around 75% profit with our program. Students can even earn outfits for the Buddy with additional donations to your school. Students that raise \$275 wiill have a Buddy donated to Children's Hospital in their name.
