CHEMICAL SOLUTIONS

## ALL PURPOSE INTERIOR DRESSING

All Purpose Interior Dressing is an economical water-based emulsion formula, providing medium to high gloss for vinyl, plastic, and rubber interior automotive surfaces.

Apply by wiping a small amount, using a sponge or soft cloth. Remove any excess with a clean polishing cloth.

This product can also be used for engine compartment dressing for used vehicle detailing by applying a fine mist to engine compartment surfaces and let dry. Do not over apply.

Do not apply to throttle pedal, brake pedals, floor mats, or shifter knobs to avoid slipping.

Consult with your Top Line Chemical Solutions representative for maximum results.
