Los Angeles CA 90012

Dear Commissioners,

The Valley Village Residents Association (VVRA) would like to convey our support for **Draft Map K2, District A.**

We believe that this map best groups us with neighbors who we rely on as strong community partners. VVRA has worked with our neighbors to improve the quality of life and to advocate for the causes that are unique to our corner of the Valley. This work includes the Orange Line, Burbank Airport, community beautification projects and homeless outreach, to name a few. Additionally, VVRA and NCVV have been working tirelessly on the LA City Planning *Community Plan Update*. This update is premised not just on the community itself but also the community's relationship to its neighbors. We share open space, shopping, transportation and so many other important resources – for this reasons we endorse Draft Map K2, District A.

Best,

Beth Fulton
President
