L.A. City Attorney  
James K. Hahn City Hall East, Suite 800  
Los Angeles CA 90012

Re: Burbank Airport Noise / FAA Compliance Position

Dear Mr. Feuer,

Valley Village Homeowners Association would like to go on record **opposing** your position that the *FAA immediately take formal action instructing Burbank Airport air traffic controllers to route all air traffic in the same manner as they did pre-Next Gen.*

What you are suggesting is that ALL air traffic (with its increased volume since 2016) be sent over the heads of our community. For those of us who live north of the 101 this is unacceptable. Our neighborhoods are struggling to understand what you have in mind when your actions suggest that some communities are more deserving of peace, quite and non-toxic fumes than others.

The well organized groups in the Southern Valley are suggesting that the noise and environmental pollution that is so toxic to their community should simply be shoved onto another....and because they are so loud many of our city officials seem to be lured into taking their position. But what about us? What about our neighborhoods that are more densely populated with fewer trees to help disperse the pollution? How is it that our best interests are to be ignored?

I would appreciate the opportunity to speak with you further about this matter. Please contact me to set up some time to find a solution that is reasonable for everyone.

Respectfully,

Beth Fulton
