Dear Resident,

I would like to make you aware of an initiative that the Town of Hempstead is currently considering to facilitate transit-oriented development in North Lawrence near the Long Island Railroad with similar objectives near the Inwood Long Island Rail Road Station. This initiative will result in a vibrant and new look to what is currently an unsightly and unappealing environment. The redevelopment will take place over a number of years. It includes changes and upgrades to our existing infrastructure, roadways and streetscape. It is the Town's belief that transit-oriented development at the two railroad stations will reduce traffic in the area and provide improved housing for our young people and seniors.

Your feedback is important regarding this proposal therefore I would like to invite you to attend a *Community Meeting* to show you the Town's concept.
