Seniors of Alaska
[REDACTED]

Homer, AK 99603

The South Peninsula Hospital Board of Directors would like to extend our sincere thanks for your help in advocating for the seniors of Alaska in the vaccination against COVID-19. Your role in communicating with Alaska seniors about the importance of vaccinations and the methods to obtain appointments, as well as helping to advocate for the dissemination of factual information regarding the vaccine, has helped protect our most vulnerable population.

We are proud that Alaska leads the nation as the state with the highest percentage of its population already vaccinated with at least one dose. This is due to the hard work of many different agencies, working together to protect our senior population, and we would like to recognize you for your hard work.

We look forward to the day when our seniors are fully protected against this disease and again have the freedom to visit with their loved ones without fear.

Sincerely,

Kelly Cooper
Board President
South Peninsula Hospital
