Challenge The Wild specialises in providing adventure based challenges and outdoor event management to charities, companies, the public sector and private groups. Our team has provided forward thinking organisations with the opportunity to put on an event which is unique, raises profile, is great for health and well being, builds exceptional teams and stands out. We have been running these events for many years and have taken thousands of people on events; so we have the experience and can really help our clients achieve their goals.

## Survive The Wild

Survive The Wild is an exhilarating and uplifting outdoor experience. Under the watchful eye of our highly-trained instructors, participants are encouraged and empowered as they take on a series of challenges, specially designed to take them outside their comfort zone. Before they know it, they'll be facing fears and achieving more than they ever believed they could. You don't have to be fighting fit or as strong as an ox to take part – a positive attitude and a good sense of humour are far more important.
