

# RESOURCES FOR PREGNANCY HELP ORGANIZATIONS

**Pregnancy Help Organizations are on the frontlines of upholding LIFE!**

**Beacon Health Education Resources** provides training, resources and consulting to help your ministry thrive in challenging times. Each center has unique opportunities with their clients and in their community. Let's partner together to provide credible and compassionate services and support!

## Counselor/Advocate Training

- **Connecting with the Client-** The first and most critical step in client care and counseling is connecting. This session includes signs you are connecting, removing barriers, recognizing unmet needs and sharing truth and love.
- **Counseling the Negative Test Client-** A negative pregnancy test can become a positive opportunity to address lifestyle decisions, and nurture emotional and relational needs. This session presents practical, compassionate ways to help clients "go and sin no more."
- **Healthy Leaders/ Healthy Ministries-** Health can be defined as physical, mental, emotional, social and spiritual health. We can best serve our clients and our team if we do so from a place of health, freedom and fullness in Christ.

## Client Education

Designed to harness the power of the advocate-client relationship, these workbook curricula provide short, simple teachings with scriptural principles and practical applications, along with easy-to-follow self-reflection and discussion questions.

- **Building Healthy Relationships**
- **Understanding Sexual Integrity**
- **Foundations of Healthy Marriages**
- **Pathways to Positive Parenting**
- **Made for More- Searching for Significance**

## Health Updates- Sexually Transmitted Diseases/Infections

The latest health information on STDs/STIs is critical if your center provides testing and/or for client education. Sharing personalized information encourages health-protecting decisions (and also opening "windows of vulnerability").

**STD Training- Live or E-Learning**

**STD Slides**

**STD Flip Chart**

## Speaking- Events/Banquets/Retreats

Lori has been called a "very effective communicator," "consummate professional," and "gifted, experienced speaker." Unique content for each engagement is developed in partnership with hosting organization.

## Consulting- Board Development/Team Building/Strategic Planning/Marketing

Lori is available to work in-person or remotely to assess and prioritize needs and opportunities, and develop working strategies with clear objectives and evaluation plans in place.

**Lori Kuykendall** earned a Community Health degree from Texas A&M University in 1994. Her first job was serving as the Teen Outreach Director at Women's Pregnancy Center in Houston, Texas. She later served as Executive Director of LifeTalk (Pregnancy) Resource Center in Frisco, Texas. Lori completed a Masters of Public Health from Liberty University, and led three other national non-profit ministries. She and her husband have four young adult children and live in the Dallas-Fort Worth area.
