

# SEXUAL INTEGRITY FOR PREGNANCY HELP ORGANIZATIONS

**Pregnancy Help Organizations have the unique opportunity to teach TRUTH and LOVE and bring HOPE and LIFE to their clients and their community!**

## Client Counseling

- **Sharing God's beautiful design** with those who may not have heard it before or who have had a distorted view
- **Addressing wholistic health needs** of pregnancy and sexually transmitted diseases along with relational and spiritual needs
- **Counseling negative test clients** by exploring risk factors and relationship challenges while offering the hope of renewed sexual integrity

*Like Jesus did for the woman caught in adultery (see John 8), we can meet clients at their point of need, compassionately share truth, and help them "go and sin no more."*

## Client Education and New Parent Classes

Sexual Integrity can be incorporated in teaching and mentoring:

- **Building Healthy Relationships**
- **Forming Strong Families**
- **Foundations of Healthy Marriages**
- **Healing Past Hurts and Renewing Sexual Integrity**
- **Made for More- Searching for Significance**

## Sexually Transmitted Diseases/Infections Testing

- **Providing medically accurate information** on bacterial, viral, and parasitic infections
- **Addressing effectiveness, ineffectiveness and health risks of contraception**
- **Sharing the "Optimal Health" model** of moving from high-risk to low- or no-risk with the hope of a healthier future

## Prevention Education and Community Outreach

- Teaching TRUTH and LOVE in public, private, and homeschools
- Reaching parents as primary sex educators of their children
- Empowering churches to boldly proclaim biblical values on identity, sex, marriage, and family
- Serving community organizations with educational presentations and training

## BEACON HEALTH EDUCATION RESOURCES

**provides centers with strategy, training and resources in these areas, in-person or virtually. Contact us for more information!**

**Lori Kuykendall** earned a Community Health degree from Texas A&M University in 1994. Her first job was serving as the Teen Outreach Director at Women's Pregnancy Center in Houston, Texas. She later served as Executive Director of LifeTalk (Pregnancy) Resource Center in Frisco, Texas. Lori completed a Masters of Public Health from Liberty University, and led three other national non-profit ministries. She and her husband have four young adult children and live in the Dallas-Fort Worth area.
