Don't miss out on the exciting events coming up in the meetings to come!

Bring a buddy and enjoy the time with your friends and colleagues, and network within your industry!

President's Message

Dear Tri-County ASHRAE:

Student night is here!!! Please note that the location for this month's meeting has changed from our normal location. This month our meeting will be held at Cal Poly Pomona. Seeing as our April meeting has always been student night, we found it fitting to bring the meeting to them. Our main program this month will be a panel featuring executives from some local companies. These executives are: Marc Anderson, Principal Engineer from DCGA Engineers, Chris Sentner, V.P. Boiler Division from R.F. MacDonald and one participant from the EMCOR team of engineers and contractors. This will be an interactive panel that will feature a Q&A from the students to the panel. They will also discuss how they work together while completing a project. We had a similar panel a few years ago and we had some great feedback. The purpose would be to expose the students to the industry that they will soon be entering.

We will also be handing out scholarships to some very deserving students so please come out and show your support.

We have begun discussions regarding new officers for the upcoming year. As soon as we finalize the nominees (in the next week or two), we will send out ballots to all of our members for confirmation. Please keep an eye out.

I also want to remind everyone that our golf tournament is 2 weeks ways on Thursday, April 26, 2012 at Eagle Glen Golf Course in Corona. For those who have signed up, thank you and for those who haven't there is still space and we are still accepting registrations.

We hope to see you all there on Tuesday!!!

JAIMELOPEZ

President

Leadership *recall*

Jim Toda took an opportunity to interview former chapter leader, Jeff Leonard, to get some insight into Tri-County's past.

Jeff Leonard served the Tri-County chapter of ASHRAE as chapter President, during the 1990-1991 season. Jeff was the second Tri-County President.

Jeff is currently the President of Leonard Engineering in Upland. Below is an interview with Jeff, which details some of the early years and various activities of Tri-County ASHRAE.

Jim Toda: Give me a little background on yourself and your family.

Jeff Leonard: I was born just south of Chicago. After I received a Mechanical Engineering degree from the University of Illinois, I worked in Springfield Illinois for five years. I then moved to Southern California. My wife Judy and I have a daughter Karen, two sons, Benjamin and Nicolas. Judy produced the Tri-County roster for the chapter into the late 90's.

JT: What was your first job in the HVAC industry and where did it lead?

JL: I worked for an HVAC Engineering firm, during the five years in Springfield Illinois. I came to Southern California to work for Store, Matakovich & Wolfberg, where I worked another five years. In 1987 I started Leonard Engineering, where I have worked since.

JT: When did you get started in ASHRAE?

JL: I was first a Student ASHRAE Member. My Refrigeration Professor Will Stoecker told me "You need to join ASHRAE". After college I went to some Southern California chapter meetings here and there. In 1988 I was asked to be part of the Steering Committee, to start the Tri-County chapter. I was chosen to be the President Elect/Programs Chair for the first two Tri-County chapter years (The first chapter year was only six months). It helped that the 1990 Chapters Regional Conference (CRC) was in Hawaii.

JT: You were there from the beginning of Tri-County. What was Tri-County like during this time?

JL: There were no precedents, so Tri-County got to set its own precedents. The involved members had to do plenty of outreach, to insure good attendance for the monthly meetings. We went to Engineering firms, contractors, and facilities, to spread the word about Tri-County ASHRAE. Committee members also did Membership promotion outreach, not just the Membership chair. For example, the Refrigeration chair while setting up a refrigeration tour, would promote the Tri-County chapter.

We sent questionnaires out each year to find out what programs our members wanted. We also asked other chapters what programs they recommended.

JT: What other interests do you have?

JL: I enjoy spending time with my family. My three grandchildren also keep me busy.

JT: Do you have any comments you would like to make?

JL: During good times and tough times, ASHRAE always allows us to learn, network, and broaden our view of HVAC. If you are entering the HVAC field, join ASHRAE and learn the fundamentals of HVAC design. Finally to recruit a Programs Chair, make sure the CRC is in Hawaii!
