MEETING PREVIEW

Our final presenter of the year is Paul Outram, PE, LEED AP from SunEarth, Inc. Paul is currently the Vice President & General Manager of SunEarth, Inc. SunEarth manufactures hot water collectors in Fontana, CA. and they have been manufacturing solar collectors and distributing solar energy products since 1978. They are now the largest manufacturer of solar hot water collectors in the U.S.A.

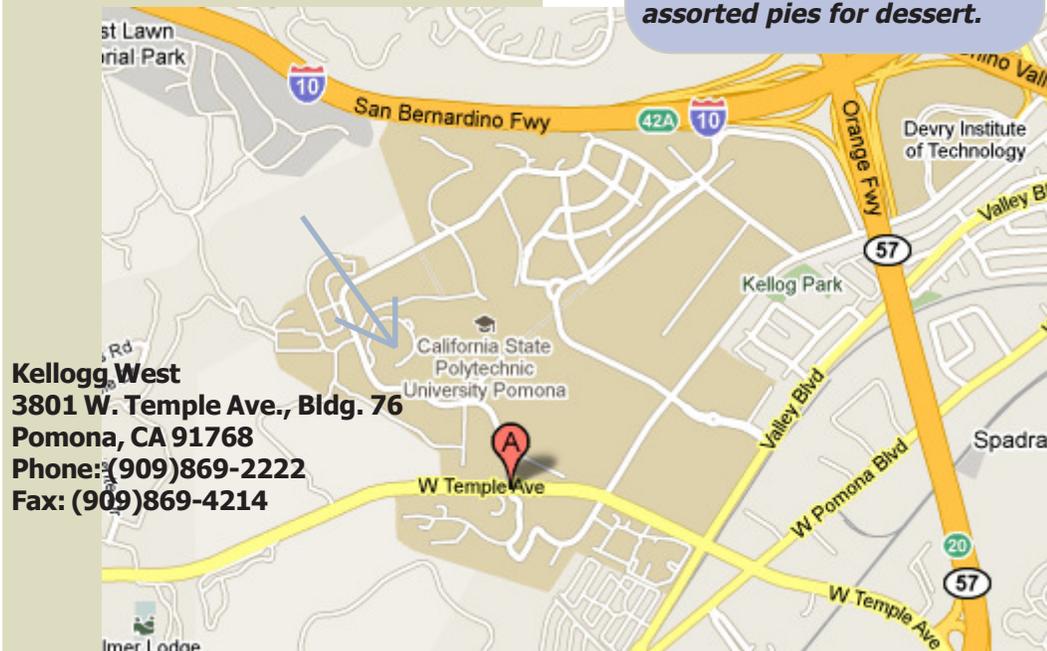

Paul graduated from the University of Warwick, U.K. with a first class B.Eng. in Engineering Design and Appropriate Technology. Paul is a licensed PE and LEED Accredited Professional.

Come out and join us in welcoming Paul along with supporting the future of our industry, current Cal Poly Pomona students. We hope to see you all there.

The menu for the night will be Southwestern chicken and beef fajitas, with Spanish rice, potato salad, corn, and assorted pies for dessert.

MEETING LOCATION

Kellogg West
3801 W. Temple Ave., Bldg. 76
Pomona, CA 91768
Phone: (909)869-2222
Fax: (909)869-4214

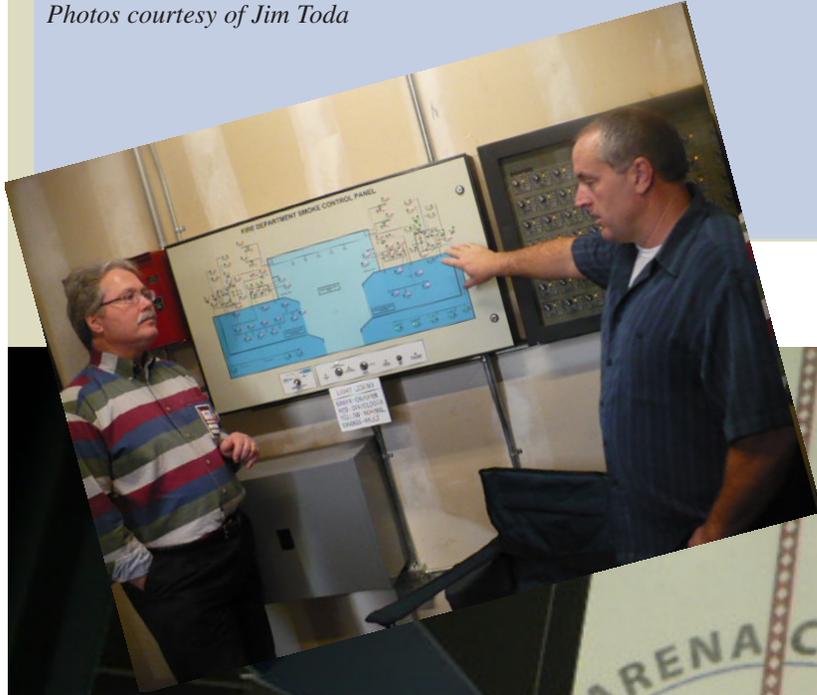

Directions: From the 57 freeway take the Temple off-ramp then go West on Temple. Go past Valley Blvd. and South Campus Drive, then turn right on University Drive. Turn right on Center Circle Drive.

JAIME LOPEZ
 President-Elect

PRESIDENT'S MESSAGE

First and foremost, it has been a pleasure to work with such great and talented people as we have in our Chapter, not to mention those members who are consistent in showing up to our meetings and in general supporting ASHRAE.

With the Student Night at Cal Poly, Golf Tournament and Installation of new Board Members and Officers coming up in April and May, we will be busy.

Thank you too to Kyle who is going to offer his expertise and assistance to the Chapter to be the Membership Chair this next year to help grow and make our Chapter even more successful. Thank you Kyle!

Likewise, to all who volunteer their time and can always be counted on...my sincere thanks. This is true for all our of our core group. I know Jaime, who has been our President-Elect, has done a fine job this year and will be a great President in the coming year. My thanks too goes out to our Treasurer, Yung. This is a tough job the first year and he, too, has been a valued asset.

ASHRAE needs all of our support to continue being the standard for our Industry. Please feel free to offer any suggestions, comments and ways and means to assist our Chapter. Having said this, we have discussed sending out a survey letter to all members about how we are doing and hear suggestions on what we can do better. Look for this before the new start of the new Chapter year.

HISTORIAN'S REPORT

Kerry Parker was the Tri-County ASHRAE chapter President during the 2000–2001 year. He provided excellent leadership during that time for the chapter. He also has served Tri County as the chapter Research Promotion Chair and chapter Historian.

Kerry is currently the Managing Principal Vice President at TMAD Taylor and Gaines in Ontario. He has been with TMAD for 29 years. I recently met with Kerry to detail some of his earlier years and various ASHRAE experiences.

JIM TODA: Tell us about your life away from work.

KERRY PARKER: I was born in Idaho Falls, Idaho. As for education, I first went to Riverside Community College. I then transferred to Cal State San Bernardino (CSUSB) majoring in Environmental Science. I was interning at TMAD while at CSSB. I then got hired by TMAD after graduation.

My family consists of my wife Teri, sons Kris (21) and Kurtis (18), and daughter Kelsey (16). This year Teri and I will be celebrating our 25 year Silver anniversary.

JT: How did you get started in ASHRAE?

KP: My first ASHRAE meeting was in December of 1995. Joel Carter from Marley Cooling Tower invited me. Joel was the Tri-County President during the 1996–1997 year. Later Sukhdev Mathaudhu encouraged me to become active in ASHRAE. Sukhdev was the first Tri-County President in 1988. This led to my first Tri-County position as Research Promotion Chair.

JT: What was your ASHRAE chapter experience like?

KP: The thing I remember was we launched the Tri-County website during my Presidential

year. We had a shoestring budget for the website but we made it happen. I also remember our meetings that year were at the Chevy's restaurant, in the Ontario Mills Mall parking lot. When I checked out the restaurant, during the day, it seemed like a nice place for a meeting. When we had our first meeting, at night, the restaurant music was so loud we could barely hear the Program speaker. Thankfully we worked out a music compromise with the restaurant, for future meetings.

JT: What people stand out as influences to you?

KP: Former ASHRAE Society President Kent Peterson and current ASHRAE Executive Vice President Jeff Littleton are people who are influences to me. We have been friends for many years. The three of us get together each summer for an annual fishing trip, at the Yellowstone area in Idaho. I eventually want to become active again in ASHRAE, partly because of them.

JT: What other interests or hobbies do you have?

KP: I like anything outdoors. In addition to fishing, I like skiing, hiking, and boating.

JT: Do you have any comments you would like to make?

KP: ASHRAE provides an excellent resource for training, career advancement, and networking. I have made many long lasting friends from ASHRAE!

PROUDLY REPRESENTING

BERKO
Industrial and Commercial Electric Heating Equipment • Radiant Heaters • Unit Heaters • Wall and Baseboard Heaters • Explosion Proof and Wash Down Heaters

BRASCH
Electric Duct and Unit Heaters • Indoor/Outdoor, Staged and 100% SCR for Tight Control • Gas Detection Systems for Refrigerant, Carbon Monoxide and Other Gases

DnB BAHNSON
Industrial Atomizing Area Humidifiers • Atomizing Heads • Centrifugal Fan Driven • Self Contained Style

DRI-STEEM
Electric, Electrode, Gas-Fired, Ultra-Sorb, Steam Injection, Steam-to-Steam and Liquid-to-Steam Humidifiers • ICW, Softened, RO or DI Water and Clean Steam Compatible • Precision Control • Short Steam Absorption • Pharmaceutical Grade • Selection Software • High Pressure Water Humidification Systems, Very Low Energy Consumption • Water Treatment Systems • Custom Engineered for Installation in Air Handling Units, Air Distribution Ducts or in the Conditioned Space

GAYLORD
UL Listed Commercial Kitchen Exhaust Hoods That Reduce Required Exhaust Volumes • Pollution Control Units For Smoke and Odor Control of Exhaust Air

HASTING HVAC
Indirect and Direct Gas-Fired Make-Up Air Units • Gas Duct Furnaces • Evaporative Coolers • Cooling/Heating Air Handling Units • Industrial Gas-Fired Heaters

KATHABAR SYSTEMS
Desiccant Dehumidification Systems for Precise Temperature and Humidity Control • Dry and Liquid Desiccants

LATTNER
Electric Steam and Hot Water Boilers 7.5 kW to 3600 kW • Closet Sized Hot Water Boilers • Condensate After Coolers • Feed Water Systems • Blow Down Separators

RUPP AIR
Indirect and Direct Gas-Fired Make-Up Air Units • Gas Duct Furnaces • Evaporative

MANAGEMENT SYSTEMS
Coolers • Cooling/Heating Air Handling Units • Industrial Gas-Fired Heaters • Air Turnover Units • Exhaust Fans • Type I and Type II Hoods

SPACE-RAY
Gas Infrared Radiant Heaters-Tube and Ceramic Emitters. Comfort and Spot Heating • Whole Building Heating • Energy Efficient Operation

AND OTHER FINE HVAC PRODUCTS FROM

AIRSAN Moisture Eliminators • AITKEN Electric Infrared Heaters • AZTEC Radiant Heating Panels

American Society of Heating, Refrigerating, and Air Conditioning Engineers

ASHRAE, founded in 1894, is an international organization of 55,000 persons. Its sole objective is to advance through research, standards writing, publishing and continuing education the arts and sciences of heating, ventilation, air conditioning and refrigeration to serve the evolving needs of the public.
