Our November meeting topic will be on Indirect Thermosyphon Cooling. The speakers will be Doug Yost from Munters and Jake Seuser from Ramtek Mission Critical Solutions. Indirect Thermosyphon Cooling provides an efficient cooling solution for new and retrofit installations where access to a suitable water supply may be limited, expensive or unreliable. The theme for our November meeting will be Chapter Technology Transfer Committee (CTTC).

Doug Yost

- BS, MS Univ. of Nebraska; MBA Univ. of Houston
- 11 years at Carrier starting in service, branch service manager, branch manager for Applied Equipment sales, then 4 state P&L Territory Manager
- 10 years at York Int’l – Global Strategic Account manager for 5 Fortune 200 pharmaceuticals – all chiller and AHU needs
- 5 years at startup Coolerado
- 9 years to current with Munters in Commercial dehumidification/IDEC cooling and then with the Data Center Technology group
- Eagle Scout; also a 4 year letterman student- athlete in springboard diving (Univ. of Nebraska)

Jake Seuser

- BS Chemical Engineering
- MS Mechanical Engineering, specializing in thermal fluid system engineering and CFD analysis
- 5 years Data Aire, applications and product development engineer, specializing in indoor agriculture and key data center accounts/designs
- 4 years Ramtek Mission Critical, sales engineer and project management, all critical equipment types
- Expertise in critical climate control, methodology, and application of technology
