

PANDA[®] mechanical rod extractor

- Easy and efficient extraction system.
- Light and easy to carry/manipulate.
- Can be used to extract rods dug manually or with the automatic hammer.
- System devised and developed by Sol Solution.

Rod extractor set includes :

- 1 tripod equipped with a" ball-bearing jaw "
- a 1m lever arm.

The lever arm increases the extraction force. It can be removed from the tripod to facilitate transport or storage. Jaw can also be removed from the tripod. Ball-bearings are interchangeable in case of wear.

Dimensions in cm :

L 119 x W 19 x H 27
