

2023 Mondo at Royal Madison – Preview

Welp. The Serb asks what would you rather have: Shane Lowry or Saheeth Theegala? William Taft or Woodrow Wilson? Cobalt or Nickel? OKC or LV? Scott Rolen or Nolan Arenado? Kenny Houston or Darrell Green? The Serb knows. Divisible by 3 or divisible by 4. Jamal Murray or Rui Hachimura? Probation or Proration?

No doubt it's a big ass field. One rookie and 26 suckers that know better. One dude giving 5 strokes back and one dude taking those 5 and getting 17 more! Pristine. The TD has done his J-O-B. Many past champs – almost all um. Littered with OWGR points and money leaders. None of that matters at the Mondo. Hit it by the street. NKJ is back to defend his lambalastment of the field in 2022. DF here to show him what is frickin' WUT! How his bread is really buttered!

So the Serb asks again what would you would rather have: Entropy or Order? Lunacy or Fit? Two-thirds venom or Max Venom? In the end, what is better? 27 Or 28? The Serb says 27. The Mondo is 27. 27 is always better.

What to make of the one Mondo Rookie? The Serb hasn't any clue. The Serb is not even sure how to spell it: Sean Gettleman, Shawn Gettrify, Shaun Gladhander, Stan Gettings? Poor nub no matter what. In for it. TD is family and just stuck him with a foursome of strange hacks and thieves. A damn shame.

The Serb does know these truths:

- 1) Front and Back Nine starting times – fargin' LIVely. A Big Boy event. Next thing these pencil necks and chicken legs will be wearing shorts.
- 2) Serb favorite, LAVs, again out and out again and out again. Bad back? The Serb calls Bollocks!
- 3) Dark Moyle back in the Foyle. Danger level PURPLE at the Royal Gun Range.
- 4) Hole signs back again. Children crooks under house arrest.
- 5) Rules almost all the same – but no crossing the street. Yes one tournament within four tournaments. Bring your Skins screens.
- 6) An even more fact-checking and cheater-finding scoring system – twice as nice. One minute per player for data rear entry (yet another reason the Serb favors 27) and no more than two weeks for recounts and litigation.

The Serb wishes all the duffing muffers Godspeed and to all their fair maidens a happy morrow. The 23rd Mondo is upon us! All 27 of us!
